

### THE KLEEN KRETE ADVANTAGE

KLEEN KRETE is a unique liquid that has the ability to remove dry, hardened concrete from virtually any surface and will not harm most surfaces when used according to directions.\* This is a ready-to-use, biodegradable product that eliminated the need for air hammering, sandblasting and scraping of hardened concrete from equipment, forms and other items that may come in contact with concrete. KLEEN KRETE is also an environmentally-friendly way to etch and clean concrete floors in preparation for application of epoxy or simply to create a non-slip surface.

#### For Removing Hardened Concrete From

- Concrete forms
- Concrete & mortar mixers
- Hand tools
- Precast equipment
- Ready-mix trucks
- Saw cutting equipment
- Screeds
- Troweling machines
- Vehicles

#### Other Uses

- Cleaning & etching concrete floors prior to applying epoxy coatings
- Etching concrete floors to create a non-slip surface
- As a brick wash\*

\*dilute at 1 part KLEEN KRETE to 5 parts water

#### Easy To Use & Economical

- ✔ KLEEN KRETE is safer for your employees, only needing to be brushed or sprayed on the hardened concrete needing to be removed.
- ✔ It is packaged ready-to-use in 1, 5 or 55 gallon quantities and every 1 gallon bottle includes a 30" trigger sprayer.

#### Environmentally Friendly

- ✔ KLEEN KRETE is the eco-friendly alternative to conventional methods of removing hardened concrete.

#### Reduces Equipment Damage and Labor Costs

- ✔ By eliminating the need for air hammering, sand blasting and scraping, KLEEN KRETE reduces associated labor times, damage caused to buildings, equipment and vehicles AND helps extend the life of your equipment by keeping it clean.

#### Safe For Use On Most Surfaces

- ✔ KLEEN KRETE will not damage aluminum, chrome, electrical systems, glass, paint, rubber and most other surfaces when used according to directions.
