

July 2021 Study Guide

This month we concentrate on Rule 8. I anticipate that by now most of you have your new rule books- although there is very little word for word change from 2020.

Rule 8-2-1:

Notice the ways touchdowns can be scored. I doubt very few of us have ever seen example “c”.

Rule 8-2-2,3,4,5

The carryover rule. The rules are separated on whether there was a change of possession, the fouls were unsportsmanlike conduct or a non-player and the timing of the foul related to the PAT- the obvious facts a crew must separate to offer the offended team the correct options.

How may a foul other than USL or non-player foul be carried over with

- A. No change of possession
- B. Change of possession

How are USL and non-player fouls carried over on a touchdown scoring play? Is there a separation for this type of foul regarding change of possession?

How are any succeeding spot fouls carried over dependent on their timing between the score and the ready for play for the PAT? After the ready for play?

What are the examples of succeeding spot fouls we enforce in high school football?

Rule 8-3 Try

This rule governs all the possibilities a crew may face during a try or PAT.

When does a try begin? End?

On a successful try how is a loss of down penalty by Team A enforced?

Unsuccessful try?

On a successful try how is a foul by Team B enforced? Unsuccessful try?

Double foul?

Can a team attempt a kick try and then with a required replay due to a foul by Team B then attempt a two point try?

Rule 8-4 Field Goal

What are the types of kicks that may be used for a field goal?

Describe a successful field goal.

Crew Questions:

A. How is a foul by Team R during a successful field goal enforced? What options are given Team K?

Please note the language difference in the carryover option- “succeeding spot” and NOT “ subsequent kickoff”. This has potential application in overtime as there is no kickoff in overtime.

Rule 8-5-1 Force

Review Rule 2-13 for study.

What actions create a force?

Can a new force come from an illegal kick?

How is muffing or batting of a loose ball in flight treated as a force?

Is being forced or blocked into a loose ball a new force?

Rule 8-5-2 Safety

List the three ways a safety can occur in high school football

Rule 8-5-3 Touchback

What are the four ways a touchback can occur?

Crew Discussion:

A. How is a loose ball (not a pass) hitting the pylon interpreted based on the force that caused the ball to hit the pylon? How many scenarios can you think of?

Momentum Exception

This is part of Rule 8-5-a EX

What yard line is involved?

What types of plays produce momentum exception?

A defender intercepts a pass while airborne leaving the ground at the 1 yard line and then next lands in the end zone. Does momentum exception apply?

A defender intercepts a pass at his 4 yard line and his momentum takes him into the end zone. Multiple situations:

A. He is hit in the end zone and fumbles out the end line

B. Hit, fumbles and the ball rolls back out into the field of play and recovered by A or B at the 3 yard line. Rolls out of bounds at the 3 yard line.

Excellent review in casebook 8.5.2

Sample Questions

Safety

1. A field goal is attempted. The kick is short and bouncing towards the end zone when a defensive back picks up the ball at the Team R 4-yard line running directly toward the Team R goal line. He continues his run into the end zone, attempts to begin a return but is tackled there. The covering officials award a new series to Team R at the R-4 yard line against the strong protest by the Team K coach that this is a safety. The officials are correct.

A. True

B. False

Momentum Exception

2. A defender intercepts a pass at the Team B4- yard line and his original momentum carries him into his end zone. There he is hit, fumbles, and the ball rolls out of the end zone and is lying on the Team B2- yard line when a Team B teammate muffs the ball back towards the goal line where it hits the pylon. Which statement is TRUE:
- A. Momentum exception applies. Team B 1/10 from the Team B4-yard line
 - B. Touchback. Team B 1/10 from the B20-yard line
 - C. Safety. Team B will free kick from the Team B 20-yard line

- A. True
 - B. False

Momentum Exception

4. Defensive back B37 intercepts a pass at his three yard line running parallel to his own goal line. After several steps he stumbles into his own end zone where his elbow touches the ground trying to balance himself. Correctly officiated this comes under momentum exception.
- A. True

- A. True
 - B. False

Missed Field Goal

6. A field goal attempt is short with the ball bouncing in the field of play. While the ball remains live a member of the receiving team blocks a kicking team member in the back. The ball eventually rolls out of

bounds at the Team R 6-yard line. This foul will be enforced from the previous spot because Post-scrimmage kick enforcement does not apply to missed field goals.

- A. True
- B. False

Momentum Exception

7. Defensive back B37 muffs an interception attempt at his own 7 yard line while running towards his own goal line. He eventually gains control of his muff at his 3 yard line and his momentum takes him into his own end zone where he is tackled. Correctly officiated Team B will begin a new series at their 3 yard line 1/10.
- A. True
 - B. False

Force

8. Runner A35 takes a handoff in his end zone, runs forward out of the end zone and fumbles into the air when hit. Linebacker B60 muffs the airborne fumble from the field of play back into the end zone where offensive lineman A56 recovers. This is a safety.
- A. True

- A. This is a touchback
 - B. Momentum exception applies
 - C. This is a safety

Momentum Exception

11. A defensive back muffs an attempted interception at his own 7 yard

line but completes the interception at his 3 yard line while running full speed towards his own goal line. While in his end zone he attempts to reverse field, fumbles and the ball bounces out of the end zone over the end line. This is a safety. Team B will free kick from their twenty yard line.

- A. True
- B. False

Force

12. QB throws a backward pass which is batted while in the air into the Team A end zone by a rushing defender. The ball bounces out the the end line. This is a touchback.

- A. True
- B. False

Pylon- Safety or Touchback

13. A defender intercepts a pass at the Team B 6-yard line. He retreats to his 4 yard line, is hit and fumbles. The grounded ball bounces into the pylon. This is ruled a safety by the covering official. This is correct.

- A. True
- B. False

Penalty Carryover

14. During a touchdown a defender commit's a personal foul. Prior to the ready for play for the try he is flagged for an unsportsmanlike foul. Team A may enforce both on the subsequent kickoff.

- A. True
- B. False

Force

15. Concerning force which statement is FALSE:

- A. A new force can be given to a fumble after it has touched the ground
- B. A new force may be given to a grounded backward pass
- C. R78 blocks a punt. The ball bounces into the Team K end zone. The force that took the ball into the end zone is the block of the kick.
- D. A snap can be an initial force
- E. Force is not a consideration on a free kick going into Team R end zone.

Pylon

16. Runner A20 runs toward the right pylon and dives from the field of play. The ball glances off the right side of the pylon then the runner falls out of bounds. This is a touchdown.
- A. True
 - B. False

Carryover of Penalty

17. Team A scores a touchdown as time expires for the fourth quarter making the score 21-20 in favor of Team B. A defender commits a horse collar tackle as the ball carrier crosses the goal line. The defender is then flagged for an unsportsmanlike penalty complaining about the call. Team A must enforce both penalties on the try.
- A. True
 - B. False

Case Play-Momentum

18. A receiver misjudges a punt near his goal line. He leaps, gains control of the ball but his arm movement carries the ball over the plane of the goal line while he is still airborne. He comes down in the field of play on the 1 yard line and his momentum carries him into the end zone where he is downed. The result of this play:
- A. Safety
 - B. Touchback
 - C. Team R 1/10 from the 1 yard line under momentum rule

Momentum Exception

19. Receiver R37 is standing at his 8 yard line. Realizing a punt is going over his head he begins to back up and makes the catch at his 1 yard line with his next step taking him into the end zone. K22 tackles R37 in the end zone. Correctly officiated:

- D. The blocking of a punt is not a new force

Momentum

21. Defender intercepts a forward pass at his four yard line and his momentum carries him into his end zone. In attempting to run out of the end zone he is hit and fumbles forward with the ball going out of bounds at the defender's 2 yard line. With momentum exception the defense will start a new series from their 4 yard line.
- A. True
 - B. False

Penalty Carryover

Case Play- Momentum and Enforcement

28. A defender intercepts a forward pass at his seven yard line. His momentum carries him into the end zone where he attempts to advance but is downed in the end zone. During his run an offensive wide receiver grasps a defender's face mask who is attempting to block at the Team B 8-yard line and twists it in attempting to get to the ball carrier.
