

## Massachusetts Pre-Apprenticeship and Vocational School Training Program

# TRAIN THE TRAINER

We have a GREAT Opportunity for you!

Join us for a four day program of "Train the Trainer". Teachers will participate in an externship program to learn more about horizontal construction with the intention of increasing learning opportunities for students interested in horizontal construction. Teachers will bring this enhanced knowledge of the industry and its career pathways back to the academic setting to be shared with students, school counselors, educators and parents. Up to ten recent graduates of the Massachusetts Pre-Apprenticeship Program will participate with the teachers. NELTA instructors will help train you to teach your incoming classes.

- Up to 10 Vocational School Teachers will be selected to participate.
- Teachers are required to submit a Power Point lesson based on what you learned during the four days.
- Each teacher will be eligible for a \$3,200 stipend upon completion of the program and the receipt of the lesson detailing how horizontal construction activities will be introduced in the academic setting.

Visit [www.MAPAVSTP.com](http://www.MAPAVSTP.com) and click "Advanced Program" to view photos and lesson plans from our first program.

**This program is funded by the  
Massachusetts Department of Transportation  
with instruction by the New England Laborers' Union.**
