# GOVERNMENT CAPABILITY STATEMENT

## ADVANCING EFFECTIVE, ACCOUNTABLE, AND MISSION-DRIVEN LEADERSHIP

Boxer Advisors understands that federal agencies operate in high-consequence, high-visibility environments where leaders must deliver results under intense oversight, constrained resources, and evolving national priorities. Federal government employees are being asked to do more with less; executing complex missions, stewarding taxpayer dollars, complying with rigorous statutory and regulatory requirements, and sustaining public trust—while simultaneously leading workforce transformation, managing change, and maintaining operational readiness.

Our work is designed around these realities. We partner with federal organizations to strengthen leadership effectiveness, decision-making, and accountability across all levels of the workforce; improve collaboration across components, contractors, and mission partners; and equip leaders to execute critical initiatives without disrupting core operations or mission delivery. Whether agencies are modernizing systems, responding to emerging risks, improving program performance, or developing the next generation of leaders, our approach aligns with agency priorities, governance structures, and budget-execution realities.
