# Welcome to VIDEO IN PLAY GOLF

*We have built a "Game Changing " Mobile App*

## **We focus on the professional**

We understand how important it is for businesses to make sure that their existing customers, as well as new ones, remain loyal to their brand. We believe that the most important asset to the game of golf is the Professional Golf Instructor.

## **How does this work**

The registered VIPG user will record the part of their game that needs analysis, select a Professional Golf Instructor, and submit the video for analysis. The VIPG Professional Golf Instructor will receive the 30 second video clip and provide direct feedback on how to improve, free of charge to the user. It all happens within VIPG; via a web portal or the mobile app.

## **How will this help your business**

Responses to submitted videos will enable you to develop a connection with users, and allow you to extend special offers, promotion events and discounted rates on services, green fees, and merchandise.
