## ARCHITECTURAL INTERIOR DESIGNER & FINE ARTIST

### INTERIOR DESIGN MAGAZINE, 30 UNDER 30

I have studied the world of design through a variety of lenses. After living and traveling through Europe as a fine art student, I witnessed the way creativity could be artfully infused into virtually every aspect of our culture. I am inspired by this notion and live with a constant thirst to create in new contexts. In graduate school, I leveraged my passion for creating art into the built environment. I explored how to engineer stories into architecture and narratives into spatial design to curate a composition that captures the unique identity of the user. I love this process and want to continue to grow and challenge my abilities in multiple creative realms.
