

This system allows club members to view details of hikes they have taken with the club and to provide notes and ratings.

About Hike Statistics

- Only hike miles, elevation gained, and hours hiked recorded within the new system is tracked here. None of these statistics can be altered only viewed.
- The club statistician holds the final account of miles hiked and historic detail, breakdown by year etc.
- Detailed history of hikes taken has not been loaded into the new system – however each hiker's lifetime club mileage achieved to date has been loaded into the new system as of the end of the 2024-2025 Regular Season (As of May 3th 2025)

About Ratings and Hike Notes

- Club members can provide a star rating for every hike they take with the club. So, if several hikers are listed on a hike roster, each hiker can provide their own personal rating. Each hike will then reflect an average rating that may be included in the hike description to enhance members' understanding of that hike.
- Club members can also provide their own notes regarding the hike for their own future reference.

IMPORTANT: Please note that this information is not private. Notes and ratings should be focused on the hike itself with goal of informing other club members. Notes should not be personal in nature in any way.

All active hikers are listed with their total miles.

Hiker Mileage Totals

- Notes:
- 1) Recorded Miles are miles reported after May 3rd 2025
 - 2) Historic Miles are miles achieved as of May 3rd 2025
 - 3) Total Miles = Historic + Recorded
 - 4) Club Statistician has the final record of all miles
 - 5) Ratings can only be added to miles recorded after May 3rd 2025.

TIP – See the last page of this guide to learn how to Create a Filter for your name. This makes it easier to access your information
