**HIKE: B Challenge Hike - Big Horn Wilderness - Big Horn Summit.**

**REASON FOR CHALLENGE:** B hike rating exceeded: Bushwhacking. Additional challenges include: Class 3 Scramble.

**DESCRIPTION:** This hike is an 8 mile in and out hike with an elevation gain of 2300 feet. The first part of the hike is easy desert hiking but as we start making our way up to the shoulder, route finding becomes critical. Above the shoulder it requires carefully navigating our way through a fairly dense area of cholla. As we ascend farther up you have to work your way up a very steep loose section to reach the base of the peak. The climb at this point becomes a class 3 scramble (this is the A portion of the hike) for about 2530 feet to the top. Working your way back down the steep loose section is tricky in that you must be careful not to start sliding. It is also not easy finding the same route down as it all looks alike.

**IMPORTANT INFORMATION:** Loose rock only consider this hike if you are comfortable with scrambling on loose surfaces.
