Tom's Thumb trail from the North trailhead (McDowell Sonoran Preserve Scottsdale). Rating C+. This is a 6.0 mile in-and-out hike with an elevation gain of 1200 ft. It has a steep, steady climb for the first 1.5 miles. The uphill portion of the trail is decomposed granite, making for a somewhat slippery surface to hike upon so the hike will go at a slower than normal pace. Tom's Thumb is a 140 ft high granite rock sticking up on the top of the mountain. The top of the mountain has a small valley with many interesting boulder formations. A side trail (Lookout Trail) takes us up to a viewpoint with 360-degree views. There are excellent views of Scottsdale and areas to the West as well as Fountain Hills and the Superstition Mountains to the East. Trail condition - overall a good hiking trail, but fairly steep going up the initial climb. Restrooms are at the trailhead. No park fee. Driving distance is 108 miles RT. [SCG=5.7/2300/4.4].
