

WICKENBURG

Blue Tank Falls + DC Trails (Wickenburg). Rating C. This is a 7.5 mile loop hike with an elevation gain of 1000 ft. This first part of the hike goes into a sandy wash and up the Blue Tank Falls, a very interesting area of rock formations. The second part goes up over a ridge with expansive views in all directions. There are lots of varieties of cacti in this area. A side trail goes by a large Ocotillo forest. Trail condition - most of the trail is an average hiking trail, but the Blue Wash area has a short waterfall and is sandy. There are no restrooms (but a McDonalds is on the way to the trailhead). Dinosaur Wash/Box Canyon (Wickenburg), Rating C. This is a 6 mile hike with an elevation gain of about 500 feet. This is actually three short in and out hikes in a 3 bladed fan shape. At least 2 miles of it is on soft sand along the Hassayampa river and in Dinosaur Wash so don't be deceived by the lack of elevation change. This is a very scenic hike, quite different than most desert hikes because of the canyons and possible water. This is an area where the river is above ground, but it's not very deep except after a rain. There are several slot canyons along Dinosaur Wash and two areas called narrows along the river. The box in Box Canyon is a short canyon, somewhat hidden behind a stand of large Salt Cedar trees. We'll approach it from

both above and below the falls area. Trail condition – the first third is in a rough rocky slot canyon, the last 2/3 is along a sandy wash with likely some creek sized crossings of the river. There are no restrooms at the trailhead, but we usually stop at the McDonalds in Wickenburg on our way to the trailhead. No park fee. Driving distance is 105 miles RT (7 miles of dirt each way).

Hassayampa Arch Trail (Morristown). Rating C/B. This is an in and out (C level) or lollipop loop (B level) hike of 7.5-9 miles with an elevation gain of 800-1200 ft. While the overall trail surface is pretty good as it follows old roads, the short by steep section up to the arch is mostly gravel and larger stones. The hike starts out by crossing the usually dry Hassayampa River. The arch is large - we can easily walk through it and there is room for many hikers to be shaded for the snack break. Twin Peaks & Dana's Arch (Wickenburg). Rating C+. This is a 5.8 mile lollipop loop with a short steep side hike up to the arch. The elevation gain is about 800 feet. The trail itself is very rocky in places and goes through a sandy wash for part of it. You can see parts of Wickenburg and the old Renegade mine, as well as Vulture Peak and other surrounding mountains. There is a Crested Saguaro about 50 yards below the mine (on the right as you look up the road to the mine).
