

CRISTOBALITE QUARTZ		TILE & SLABS	
NORTH INDIA FOB MUNDRA PORT			
SLAB SIZES			
Jumbo	65" x 126"		
Super Jumbo	79" x 130"		
DUTY	CVD - 2.19% / AD 0%		
<p>Cristobalite material is produced in Belgium and is achieved by sorting the whitest quartz, then placing the material into a rotary kiln with temperatures up to 1500 degrees. Quartz sand turns into a white crystal powder that is also translucent with no granule appearance. It will add a smooth enhanced visual appearance and offers a more durable finish.</p>
