ADVANTAGE C.R.E.D.O.

CREDO Charitable Trust inspired '***IC-SURE Projects Marketing Private Limited***' is not a company looking at reaping profits. One of our many objectives is to spread knowledge amongst the masses in order to integrate the youth, the able bodies into a network that is committed to earn for the society while generating self-wealth i.e. wealth generation for you and the society at large.

We believe that the way forward is in creating social infrastructure where the educated, the skilled, the intellectuals integrate with the abilities, labour and experience of the semi-skilled, the unskilled and the marginalised to create a new society which is woven into a circular economy where one is dependent on the efforts of the other

*All collaborative, enlistments, linkage and promotions shall depend on project availability at the time of context.
