

SUGGESTED RETAIL JUST \$7,495 INSTALLED

The same for all pickup cab models, flat or chassis beds, day cabs, etc.

YES! WITH THE REQUIRED 8' BED YOU CAN TOW 5TH WHEEL TRAVEL TRAILERS

We take 21 inches vertically from the 8' or longer box making it the equivalent of a short bed

You've had two common choices in the past

1) Stay in motels and suffer lower profits 2) Suffer sleeping in the cab

Now there's a third choice!

3) The ZoomRoom – as you enjoy live-in comfort, convenience, safety, and D.O.T compliance it can quickly pay for itself and make you truly happy with your work!

With the back seat free it is possible to live in the unit for extended periods!

Access is easy through a sunroof we install (glass removed/stored) that complies with D.O.T. requirements. **Note:** You may lose some overhead center console. If you have a factory sunroof a careful inspector may not allow sleeper berth logging, but if you can fit through it we can fit to it. Prices and specifications can change without notice. We also build for flat beds and frame trucks for the same price. Call re: the Dodge Mega Cab and Ford factory sunroofs.

Standard equipment includes: two screened side windows, four I.C.C. lights, four interior dome lights, two 12V outlets, two cup holders, and a cargo net. White is the standard color. Mill colors come close to, or complement many truck colors - at no additional cost. Black molding keeps colors from being seen directly together. Visit our shop to see what's available or to discuss color match painting.

The D.O.T. compliant ZoomRoom sleeper has a unique patented concept and includes: commercial quality; proven practicality; increased security for your cargo; and a wind deflector that separately would cost upwards of \$1,200. The Zoom room covers wider & higher area for wind deflection. It nearly eliminates the turbulent winds that can lift a 5th wheel trailer's nose enough to reduce traction on ice. Stability, handling, driver tension, fatigue, and vehicle stress are improved. You'll also like seeing very few bugs on any trailer.

Optional Equipment: (All prices & specifications are subject to change)

RV Multi-Speed Roof Vent Fan	\$318
Custom Support system for flat bed trucks	\$850
No-Idle Heat & AC (HVAC) (add \$100 for later install)	\$850
Shore Line for Generator Hookup w/110V outlets	\$120
Team Drivers Restraints System (D.O.T compliant)	\$295
Rear Utility Lights for Cargo Security	\$120

Finance: orders require a \$500 non-refundable deposit. Expect a long wait. All units are built to order. We accept most major credit cards, or **we can help obtain financing.** Motel savings can make the payments until it makes you money!

You supply the TV set, your favorite pillow, and clean bedding,
Then let our high-quality 4" x 76" foam mattress provide cloud 9 comfort any time and anywhere.

Sound deadening insulation makes it easy to heat and cool.

All units are built to order and installed in Wakarusa, Indiana. They weigh in at approximately 600 lbs.

The ZoomRoom is backed by a two-year / 200,000-mile warranty. You can have confidence in the ZoomRoom's commercial quality.

The ZoomRoom Sleeper Loft

You get luxurious comfort and maximum safety

The double cab model's 52" mattress sleep two in comfort

You reduce overall operating cost while improving comfort and safety.

You access the sleeper without exiting the driver compartment as required by D.O.T. for professional drivers

Patent applied for

A SWITCH RAISES AND LOWERS THE UNIT TO EASILY ADJUST FOR OPTIMAL WIND DEFLECTION WHILE TOWING, OR FOR SLEEPING - DRIVE IT IN ANY POSITION

- *The Rearview mirror remains free*
- *There's no fuel tanks interference*

WITH THE BACK SEAT NOW AVAILABLE THERE'S ROOM FOR AN EAT-HEALTHY KITCHEN, TOOLBOX, CLOTHING, OFFICE AND EVEN A PRIMITIVE TOILET

It's much easier to access than the bed of the truck

Professional truckers can wait comfortably for loads. Pay yourself instead of motels, and perhaps get more work because of your professional image.

Sport and hobby enthusiasts can drive to their destination ahead of time so they can be rested and alert for an early start to meet all challenges and opportunities.

When lowered, the ZR adds 18½" to the highest cab point. Add 28" more for the up position.

The loft's 52" mattress (double cab model) is ample for couples with plenty of ceiling height to comfortably sit up and change clothing.

Each pickup model (double cab, supercab, or single cab) can interchange between Ford, Chevy, and Dodge pickups, and can be transferred a new truck with the same cab. A new sunroof is required
