Dear Sir or Madame:

We are writing to you because we believe that you, in the past or near future, might come across an individual who wants to stop his or her sexually destructive thinking and behavior.

This is an illness that can manifest itself in a variety of forms such as:

- uncontrollable lust
- excessive use of pornography
- promiscuity
- exhibitionism
- obsessive sexual fantasies
- compulsive masturbation
- adultery
- voyeurism
- molestation
- dependency relationships

The list is endless. However...

We have found a way out by using a simple program of action based on the original life saving principles of Alcoholics Anonymous. The practice of these principles have enabled thousands of seemingly hopeless cases to live free, one day at a time. Sexaholics Anonymous is not a support group nor do we provide therapy. We are a fellowship of men and women who have recovered from a hopeless state of mind and body. Our experiences have proven that we were powerless over lust and that no human power could restore us to sanity, but that God could and would, if sought.

We have enclosed our brochure to provide you with some additional information. If you think that we could help someone that you know or if you have further questions, please feel free to contact us at (804) 254-9939 or visit our national website at www.sa.org.

Thank you for allowing us to share our solution with you.
