***** Alpha Electric retains the rights to cease continuance of the awarded scholarship at any time if is determined that the student is not performing at acceptable levels.**

Examples of un-acceptable performance

(Poor test scores, Poor attendance, Negative feedback from instructors)

Many people are not aware of the opportunities that are available in the electrical industry. The Bureau of Labor statistics estimates a 14 percent growth from 2014 to 2024 in this industry, much faster than the average for all occupations. Here at Alpha Electric we see this opportunity as a career not a job.
