

15-MINUTE CITY ACTION KICK-OFF

Working Together to STOP the global takeover.

Outline

- 1. Concept of a 15-Minute City**
- 2. 15-Minute City Reality**
- 3. UN and WEF Masterplan**
- 4. UN Sustainable Goals**
- 5. Key Non-Government Organizations**
- 6. Global Lockstep**
- 7. The Plans in Canada**
- 8. The Law**
- 9. Actions YOU Can Take**
 - 1. Community Association**
 - 2. Stakeholder Group**
 - 3. Court Action**

What is a 15- Minute City Concept?

- The **15-minute city (FMC or 15mC)** is an urban planning concept in which most daily necessities and services, such as work, shopping, education, healthcare, and leisure can be easily reached by a 15-minute walk or bike ride from any point in the city. This approach aims to reduce car dependency, promote healthy and sustainable living, and improve wellbeing and quality of life for city dwellers.
- Implementing the 15-minute city concept requires a multi-disciplinary approach, involving transportation planning, urban design, and policymaking, to create well-designed public spaces, pedestrian-friendly streets, and mixed-use development. This change in lifestyle may include remote working which reduces daily commuting and is supported by the recent widespread availability of information and communications technology (ICT). The concept has been described as a "return to a local way of life".

15-Minute City Reality

The 15-Minute City concept may seem beneficial on the surface, however, when you dig into the heart of initiative it soon becomes apparent that the goal is about control of society on every possible level.

Documents show the end goal is to reduce:

1. Restriction of mobility
2. Consumption of clothing
3. Ownership of vehicles
4. Change in diet
5. Overhaul of building guidelines and materials
6. The POPULATION
7. Loss of control of your data

UN and WEF

The key driving organizations for the 15-Minute Cities initiative is the United Nations under the United Nations Sustainable Development Goals 2030¹ Agenda and the World Economic Forum through the c40 leadership initiative.

These global entities are Non-Government Agencies run by unelected individuals and are dictating domestic policies here in Canada and abroad. They do this through lobbying, through infiltration in government and former global young leaders who take-up executive corporate roles.

This is being done without our knowledge, meaningful consultation and without our consent – while using our tax dollars.

SUSTAINABLE DEVELOPMENT GOALS

United Nations Sustainable Development 17 Goals

1 NO POVERTY 	2 ZERO HUNGER 	3 GOOD HEALTH AND WELL-BEING 	4 QUALITY EDUCATION 	5 GENDER EQUALITY 	6 CLEAN WATER AND SANITATION
7 AFFORDABLE AND CLEAN ENERGY 	8 DECENT WORK AND ECONOMIC GROWTH 	9 INDUSTRY, INNOVATION AND INFRASTRUCTURE 	10 REDUCED INEQUALITIES 	11 SUSTAINABLE CITIES AND COMMUNITIES 	12 RESPONSIBLE CONSUMPTION AND PRODUCTION
13 CLIMATE ACTION 	14 LIFE BELOW WATER 	15 LIFE ON LAND 	16 PEACE, JUSTICE AND STRONG INSTITUTIONS 	17 PARTNERSHIPS FOR THE GOALS 	

Key NGOs

Notable global Non-Government Organizations:

- [C40.org](https://www.c40.org/), *A global mayoral network united in the front of “climate crisis”.*
- [ICLEI – International Council for Local Environmental Initiatives](https://www.iclei.org/), *a global network of more than 2,500 local and regional governments committed to sustainable urban development. Active in 125+ countries, we influence sustainability policy and drive local action for low emission, nature-based, equitable, resilient and circular development.*
- [Global Covenant of Mayors](https://www.gcom.org/), *This is a powerful and historic response to climate change from cities around the world. GCoM is the largest global alliance for city climate leadership, built upon the commitment of over 10,000 cities and local governments.*
- [Carbon Disclosure Project](https://www.cdp.com/), *CDP is a not-for-profit charity that runs the global disclosure system for investors, companies, cities, states and regions to manage their environmental impacts*
- [United Cities and Local Governments](https://www.unitedcities.org/), *Together we are the sentinels of the hopes, dreams, and aspirations held by individuals in communities around the world -- searching for a life in which the ideals of the SDGs are a lived reality.*
- [World Resources Institute](https://www.wri.org/), *WRI is a trusted partner for change... We aim to fundamentally transform the way the world produces food, uses energy and designs its cities to create a better future for all. We work across several topics affecting people, nature and the climate*

Global Lockstep

United Nation Member States Work in Unison to Achieve the SDG:

- In 2015, all 193 UN member states agreed on the Sustainable Development Goals (SDGs) as a common set of priorities to be achieved in all countries by 2030.¹
- Meeting commitments, requires UN to work in ‘lockstep’ with parliamentarians.²
- To achieve a better outcome, the world must act jointly and swiftly to revamp all aspects of our societies and economies, from education to social contracts and working conditions. Every country, from the United States to China, must participate, and every industry, from oil and gas to tech, must be transformed. In short, we need a “Great Reset” of capitalism.³

The Plans

A snapshot of just a few of the current plans using Ontario and Toronto as the subject:

- **C40.org**¹: *Mayors of C40 cities are committed to using an inclusive, science-based and collaborative approach to cut their fair share of emissions in half by 2030, help the world limit global heating to 1.5°C, and build healthy, equitable and resilient communities.*
- **Ministry of the Environment and Climate Change Emergency Response Plan, 2017**²: *The plan builds on the ministry's spill response and drinking water regulatory programs and relies on the statutory duties imposed on the regulated community that may be involved in spill or drinking water events. In addition, the plan recognizes the authority of the ministry to deal with any other pollution or drinking water events when necessary.*
- **A Made-in-Ontario Environment Plan**³: *Ontario's plan to address climate change and protect our air, land and water.*
- **Toronto Emergency Crisis**⁴: *On October 2, 2019, City Council voted unanimously to declare a climate emergency⁵ and accelerate efforts to mitigate and adapt to climate change, adopting a stronger emissions reduction target of net zero by 2050 or sooner. In response, the City has developed the TransformTO Net Zero Strategy, which outlines a pathway to achieve net zero emissions community-wide by 2040.*
- **TransformTO Net Zero Strategy**⁶: *Toronto City Council has adopted an ambitious strategy to reduce community-wide greenhouse gas (GHG) emissions in Toronto to net zero by 2040 – 10 years earlier than initially proposed. The City's 2040 target is one of the most ambitious in North America.*
- **Live Green Toronto**⁷:
 - *by 2050, 100% of personal vehicles should be zero carbon which can currently only be achieved by electric vehicles*
 - *Toronto's net zero existing buildings strategy will require the owners of all privately-owned homes and buildings in Toronto to decarbonize their buildings by 2040, with support from the City of Toronto.*

The Law

There is good news in this story! The Law is on OUR side!

We are going back to the roots of Canadian law; Magna Carta, British Bill of Rights, Implied Bill of Rights and the Canadian Bill of Rights!

- **British Bill of Right; Dispensing Power.** *That the pretended Power of Suspending of Laws or the Execution of Laws by Regall Authority without Consent of Parlyament is illegall.*
- **Constitution Act 1867-1982; The Criminal Law, except the Constitution of Courts of Criminal Jurisdiction, but including the Procedure in Criminal Matters under 91.27 and 52, Primacy of Constitution of Canada 52 (1)** *The Constitution of Canada is the supreme law of Canada, and any law that is inconsistent with the provisions of the Constitution is, to the extent of the inconsistency, of no force or effect.*
- **Implied Bill of Rights:** *The court found that the Accurate News and Information Act, along with the others submitted to it for evaluation, was ultra vires (beyond the powers of) the Alberta government. In the case of the Accurate News and Information Act, the court found that the Canadian constitution included an "implied bill of rights" that protected freedom of speech as being critical to a parliamentary democracy.*
- **Canadian Bill of Rights:** *Section 1(a) the right of the individual to life, liberty, security of the person and enjoyment of property, and the right not to be deprived thereof except by due process of law.*
- **Criminal Code;** *Section: 46 Treason (2) Every one commits treason who, in Canada, (a) uses force or violence for the purpose of overthrowing the government of Canada or a province;*
- **Common Law:**
 - **Authorson v. Canada (Attorney General), 2000 ON SC;** breach of fiduciary duty by public official is a tort if rights under Canadian Bill of Rights are violated.
 - **Jones v Tsige, 2012, ONCA;** The Ontario Court of Appeal declared that the common law in Canada recognizes a right to personal privacy, tort in Ontario law. Meaning that one can sue for breach of privacy.
 - **Roncarelli v Duplessis, 1959, SCC;** ... every official, from the Prime Minister down to a constable or a collector of taxes, is under the same responsibility for every act done without legal justification as any other citizen.
 - **R. v. Eldorado Nuclear Ltd.; R. v. Uranium Canada Ltd, 1983, Supreme Court of Canada. 1985, SCC;** When a Crown agent acts outside of Crown purposes, and not on behalf of the state, there is no immunity of the Crown agent: When a Crown agent acts outside of Crown purposes, and not on behalf of the state, there is no immunity of the Crown agent:

Actions to Create Change

We are NEVER victims, instead we find opportunities.

Our job now, is to get involved, get connected and take responsibility. This starts by putting forward the same level of commitment as the “left” to balance the scales.

Below are some actions that we can take now to shape policy in our city halls:

1. Create a Community Association
2. Build a Stakeholder Group
3. Take Court Action

These actions can all be done simultaneously, one group can focus on working with city council while the other group works on legal action.

Actions to Create Change

1. Create a Community Association

If your community doesn't already have one, start a Community Association with a group of like-minded individuals.

Create this network with the intention of lobbying/pressuring the local government(s) to steer their bylaws/policies.

Actions:

- Read the city council agendas, look for keywords that exist in the plans. For example, traffic calming, equity, etc.
- Attend city council meetings and participate and/or watch them online
- Do Freedom of Information (FOI) requests to get data being used to drive policies
- Create letter campaigns in response to city hall actions
- Make connections with councillors; find allies and work with them
- Try to normalize a conservative point of view
- Create shareable assets to put into the community for exposure and "buy-in"; news letters, advertisements, etc.
- Set up weekly reconnects to support each other, stay updated on goings on and collaborate

Actions to Create Change

2. Build a Stakeholder Group

As there are many different areas that are being impacted by these plans, creating targeted stakeholder groups can be a great way to tackle a particular issues/subject.

Action:

- Identify key areas of concern
- Pull from your existing network to build a stakeholder group
- Use the stakeholder group to lobby/pressure city council to change directions
- Try to normalize a conservative point of view

Actions to Create Change

3. Take Court Action

Use you can use the 15-Minute City Treason Notice of Liability to serve city councillor and/or your Mayor to hold them accountable.

We recommend doing this action in a larger group if possible.

Action:

- 1.** Familiarize yourself with the Stand4THEE NOL template and process
- 2.** Research the evidence that will be used as inputs to your claim
- 3.** Connect with folks in your community to take the action together
- 4.** Build your NOL and serve it!
- 5.** If not rectification, take the next step to small claims!

Thank you!
