Important Information about the Keewatin.

The S.S. Keewatin is not an accessible ship. Gangways, multiple steep stairways and narrow passages prohibit the use of mobility devices and strollers. Passengers must be physically fit enough to stand for the length of the tour, navigate tight quarters, stairways and uneven surfaces. For those unable to board the ship there is a 360 virtual tour available in the S. S. Keewatin gallery.

Please be advised that the ship is not climate-controlled and is about 10 degrees colder or warmer than the outside temperature. Please dress accordingly.
