

COVID-19 Preparedness Plan for @Bat Player Development

@Bat Player Development is committed to providing a safe and healthy workplace for all our customers. To ensure we have a safe and healthy workplace, we have developed the following COVID-19 Preparedness Plan in response to the COVID-19 pandemic. Our goal is to mitigate the potential for transmission of COVID-19 in our workplaces and communities, and that requires full cooperation among our members and fellow customers. Only through this cooperative effort can we establish and maintain the safety and health of our customers.

Handwashing

Basic infection prevention measures are being implemented at @Bat Player Development at all times. All customers to @Bat Player Development will be required to wash or sanitize their hands immediately upon entering the batting cage. Hand-sanitizers are at locations in the facility so they can be used for hand hygiene in place of soap and water, as long as hands are not visibly soiled.

Respiratory etiquette: Cover your cough or sneeze

Customers are being instructed to cover their mouth and nose with their sleeve or a tissue when coughing or sneezing and to avoid touching their face, in particular their mouth, nose and eyes, with their hands. They should dispose of tissues in provided trash receptacles and wash or sanitize their hands immediately afterward. Respiratory etiquette will be demonstrated on posters and supported by making tissues and trash receptacles available for customers.

Social distancing

Social distancing of six feet should be implemented and maintained. There will be a limit of 6 people total inside of the facility at one time. Only 2 people are allowed in each cage at a time. No exceptions. When you are done using the cage you will need to exit the facility immediately as we are not allowing any lingering/socializing at the counter or common areas due to Covid-19.

Cleaning, disinfection, and ventilation

Regular housekeeping practices are being implemented, including routine cleaning and disinfecting of surfaces and equipment.

Communications and training

Customers are encouraged to wear masks when using the facility. Customers are advised not to enter if they are experiencing symptoms or have contracted COVID-19. This COVID-19 Preparedness Plan has been certified by **@Bat Player Development** and was posted throughout the workplace 5/15/2020. It will be updated as necessary.
