

Problem

The SO14 area is one of the most diverse but also deprived areas of Southampton.

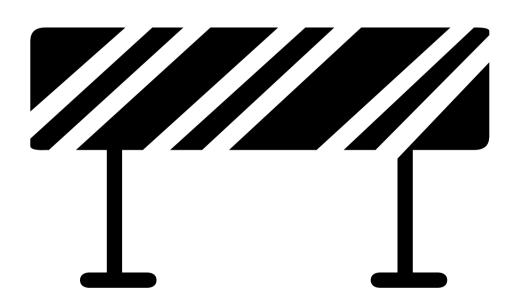

Lack of investment

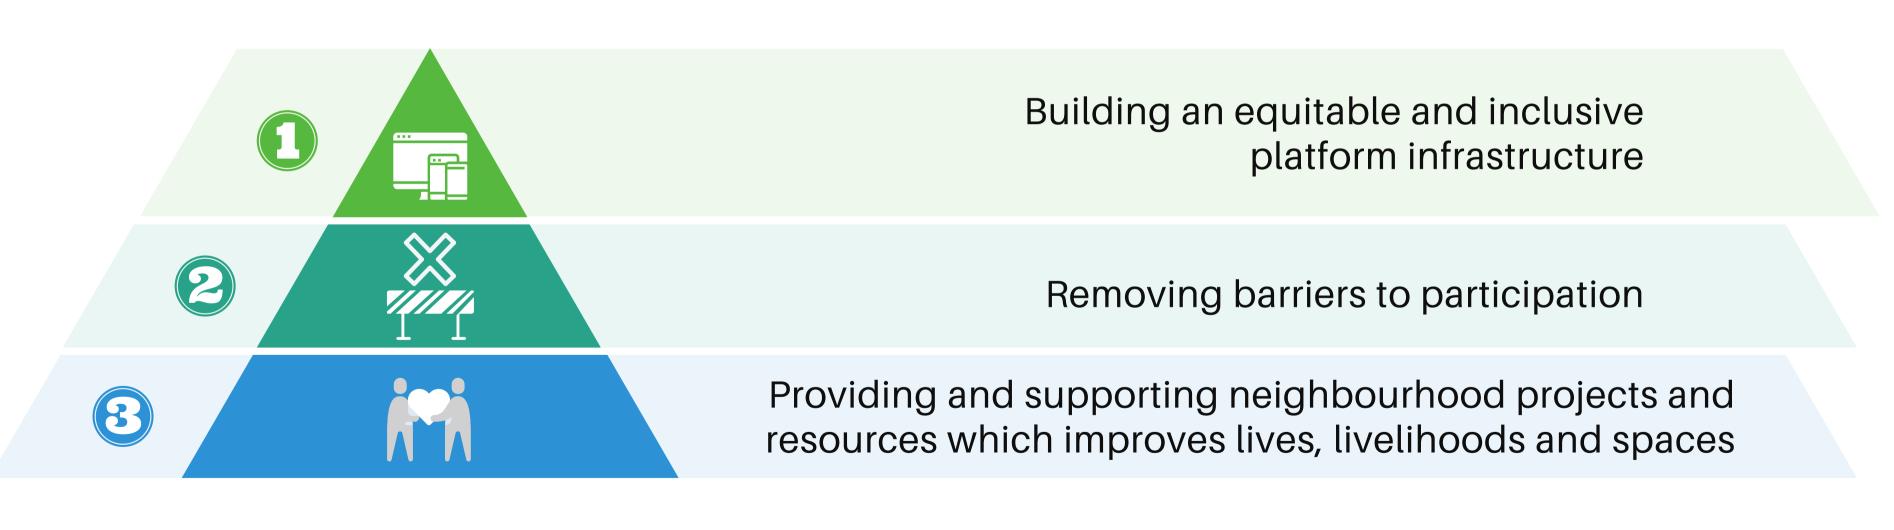

Lack of high value community assets

High barriers to participation

HomeGrown's Objectives

Our activities are guiding by the following principles

be low time commitment

Be designed around the principles of the circular economy

be within a **10- minute walk** of residents'
homes

be fully inclusive and equitable as possible

Be practical, with clear pathways to social and environmental impact

Maximise the usage of existing community assets

free to participants

Offer benefits both to the place and participants

Welcome beginners through to experts

Be enhancing people's digital and creative skills (gardening)

Be co-designed with the community and various other groups

be leveraging large scale data such as the Southampton Data Observatory

Who is HomeGrown?

The Current Projects

Ropewalk Community Garden (RCG)

- RCG meets once a month on a **Sunday morning (30 participants)** to maintain and **grow produce** in the unique green oasis of the Ropewalk Garden in the heart of inner-city St Mary's
- People also participate in designed activities and share a vegetarian lunch.

Sew-Change project

- Is a project happening weekly (8 participants+1 paid facilitator) by the artist Debbie Goatley-Birch to enable local women St Mary's and Northam to develop sewing machine skills
- Also helps them learn how to **transform scrap material into usable. garments and items** that could be sold or reused.

HomeGrown Catering (HGC) Project

- A project that supports women from SO14 to a start up home-based catering businesses.
- Provides help on developing skills and knowledge of menu design, operations, sustainable packaging etc.
- 1 x weekly meeting (6 participants; 1 unpaid facilitator) = **7 per week**

Space 2 Create

- A collaboration between London-based project The Agency and Northam and St Mary's Art Collective led by local young creatives.
- Young people in St Mary's, Northam and Newtown have been leading peer initiatives to improve the appearance of streets in the area using poetry and street art.
- The first pilot series of workshops ran from September December 2021.
- 2 x weekly meeting (10 participants; 3 paid facilitators) = 26 per week
