The **Accelerated Action Planning** course helps you energize and align your team to successfully plan a project, initiative or event in a matter of hours.

The fast and engaging 8-step planning process ensures that all the practical details that make for a successful project are covered and a comprehensive, high level action plan produced... in just two hours! This process is especially useful for small teams of 4-10 members who are planning a discrete, defined event or project that will be completed within the next 12 months.

You'll receive: Access to the ToP Accelerated Action Planning poster template tools to support continued project planning.

This course is an accelerated version of the traditional ToP® Action Planning course taught in the two-day ToP® Facilitation Methods training.

The Accelerated Action Planning Process

Course Applicable To:

- Managers and supervisors
- Facilitators, trainers and consultants
- Project and team leaders and team members
- Event planners
