

At RemovAid AS we are committed to:

- Design, manufacture and supply medical devices to meet our customer needs and expectations.
- Ensure suppliers, collaborators and sub-contractors hold the applicable regulatory requirements to supply product and services that meet with RemovAid's requirements.
- Comply with and measure the effectiveness of our Quality Management System in accordance with ISO 13485:2016 requirements.
- Continue to improve the effectiveness of our Quality Management System through our company goals and objectives.
- Periodically review this policy for continued suitability and communicate it to all employees.
- Maintain a Quality Management System that provides a framework to achieve these commitments.
