Come experience the

**All of Us Education & Enrollment Center**

*All of Us* is a new research program from the National Institutes of Health (NIH). The goal is to advance precision medicine or health care that is based on you as an individual. It takes into account factors like where you live, what you do, and your family health history. To get there, we need one million or more people. Those who join will share information about their health over time. Researchers will study this data. What they learn could improve health for generations to come.

The **All of Us Education & Enrollment Center** has activities to help you learn about precision medicine, research, and the *All of Us* Research program.

A healthier future, let’s pass it on together.

February 19 – 22
10:00 am to 4:00 pm

Hosted by:

**Consolidated Missionary Baptist State Convention of Arkansas**

1621 Doctor M.L.K. Jr Drive
Little Rock, AR 72202
