

G.F. TELEVET
COMMUNITY SOLUTIONS

LOCAL FOCUS.

COMMITTED TO COMMUNITY.

The individuals that we work with have usually been exposed to trauma. They may need assistance navigating through these experiences.

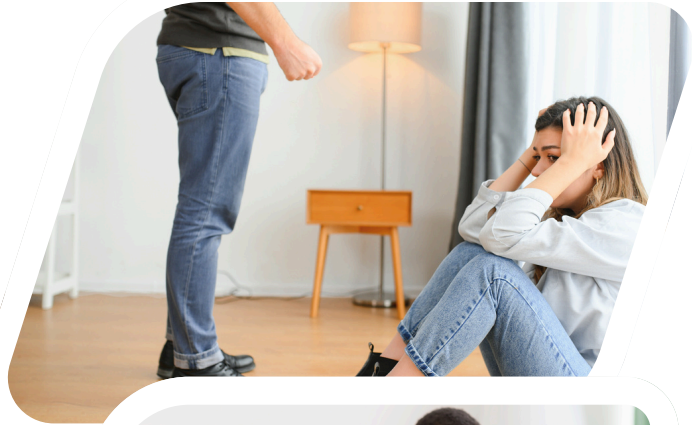

Our goal is to prevent unnecessary placement of youth and adults in restrictive environments away from their homes. Life outcomes are better for individuals who can work and attend school in their communities. We connect children, adults, & families to the resources needed to thrive in their communities.

G.F. TeleVet is a locally owned mental wellness center that provides therapy, medication, educational resources, & socioeconomic assistance, such as food, housing, childcare, and transportation support for our clients. We work with the National Center for Missing & Exploited Children, the Mississippi Division of Medicaid, & youth courts.

We work with 82 MS counties.

Make a Referral
