

MANAGING YOUR BUSINESS

JUST GOT EASIER

This Fleet Services program, offered by Network, makes it easy to manage all your commercial vehicles. Both levels of service in this customizable program deliver a range of consultative support, from maintenance management to rental programs, emergency roadside services, customized management reporting and fuel management, to help keep your vehicles — and your business — in top condition.

MAINTENANCE & REPAIR MANAGEMENT

Control costs through consistent pricing and invoice auditing, cost avoidance and post-warranty recovery. Vehicle Maintenance Guides help you stay on top of recommended service intervals while preventative maintenance items are scheduled and tracked so small repairs don't become big issues. Network's ASE Certified technicians review all repair requests over \$100 to ensure driver safety and eliminate overpriced and unnecessary repairs. And best of all, maintenance and repair costs for all of your vehicles are combined into a single monthly invoice.

RENTAL

Ensure minimal down time and get your drivers back on the road with specially negotiated rental rates and rental time-tracking monitors.

EMERGENCY ROADSIDE SERVICE

Get the support your drivers need 24 hours a day, seven days a week, all year long.

MANAGEMENT REPORTING

Simple, detailed invoices and management reports are provided to make you more efficient at operating your fleet and strategic planning for the future.

FUEL MANAGEMENT

Restrict and monitor driver spending with secure, nationally accepted fuel cards, monthly reporting on fuel costs and purchases, and monthly invoices that include all expenses.
