

TASTINGS

We offer a range of Tasting events featuring the following options:

1. **Flights:** We will taste 5 different Varietals, generally the range will include a Champagne, Pinot Grigio, Chardonnay, Merlot and finally a Cabernet Sauvignon.
We will taste them starting with the lightest and finish with the boldest. These varietals are suggestions. If you are interested in trying other varietals, we will build a flight around those that interest you.
2. 5 of the same Varietals, each from the same vintage year but comprised of a selection from 5 different wineries. This can be further customized to include wines from a specific area, such as the Russian River Valley CA, Napa, Oregon, Washington and so on. This is a great way to discover new favorites of a Varietal you already prefer. Interestingly no two Chardonnays, for instance, will be the same as each Wine Master gives their own personal spin to the flavor profile of the same varietal. This is a whole art in itself.
We will delve into the fascinating range of essences that are used to create their distinctive taste.
3. 5 different Varietals from a single winery of your choice, again, as with Varietal flights the winery can be from a specific region. This takes into consideration the fact that the soil in each region is comprised of different components and Wine Master. This is a great way to learn about how region affects to the end result.
