Compliance

Proudly CHFA Member

AHK Naturals Inc. is a reputable company that specializes in supplying high-quality ingredients. With a strong commitment to quality and safety, the company ensures that its products adhere to rigorous standards. Here are some key features and certifications that define AHK Naturals Inc.:

cGMP Certification: The company is certified current Good Manufacturing Practices (cGMP), ensuring that its manufacturing processes meet the highest quality and safety standards. cGMP guidelines help guarantee that products are consistently produced and controlled to ensure their quality and safety.

CFIA Licensed Warehouse: AHK Naturals Inc. operates a warehouse that is registered and licensed with the Canadian Food Inspection Agency (CFIA). This registration and licensing indicate compliance with Canadian food safety regulations, contributing to the company's commitment to providing safe and reliable products.

HACCP Certified: AHK Naturals Inc. has a Hazard Analysis Critical Control Point (HACCP) certification. HACCP is a systematic approach to identifying, evaluating, and controlling food safety hazards. This certification demonstrates the company's dedication to ensuring food safety at every stage of its operations.

FDA Registered Facility: As an FDA registered facility, AHK Naturals Inc. meets the requirements set by the United States Food and Drug Administration (FDA as mentioned in 21-CFR-117&21-CFR-211). This registration demonstrates the company's adherence to FDA regulations and its commitment to maintaining high-quality standards.

Non-GMO Products: AHK Naturals Inc. offers many Non-GMO products, indicating that they do not contain genetically modified organisms. This feature appeals to consumers seeking natural and unaltered ingredients.

Halal Certified and Kosher Certified: AHK Naturals Supplies certified Halal products upon request, adhering to Islamic dietary laws and requirements. These certified Halal products caters to consumers who follow Halal dietary guidelines. Many products are Kosher certified as well, adhering to Jewish dietary laws and standards.

Organic Certified: The company offers organic certified products, indicating that these items are produced without synthetic pesticides, fertilizers, or genetically modified organisms. Organic certification aligns with the preferences of health-conscious and environmentally conscious consumers. Our organic certified products are compliance with USDA and Candadianorganic regulations.

About Us

AHK Naturals Inc. is an accredited, direct wholesale agent for cGMP-certified and compliant manufacturers in China, India, Indonesia, Brazil, USA and more. As one of the largest, comprehensive nutritional raw materials suppliers in Canada, we invested in providing superior quality products in the consumer health and wellness sector. To date, we have supplied premium dietary raw ingredients to many popular nutraceutical, cosmetic, food, sports nutrition and pet care brands across North America.

Nutri-well Vision

Our vision is to be the trusted partner of choice for businesses in the natural nutrition and nutraceutical industry, providing them with exceptional, high-quality ingredients sourced from clean and sustainable origins. We strive to empower our customers to create innovative and impactful natural nutrition products that contribute to the health and well-being of individuals around the world.

Nutri-well Mission

Our mission is to supply our customers with the finest, clean-sourced ingredients available, fostering long-term partnerships built on trust, reliability, and shared success. Through our commitment to quality, sustainability, and continuous innovation, we aim to support our customers in developing and delivering exceptional nutraceutical supplements that meet the needs and desires of today's health-conscious consumers.

- ● By upholding our vision and mission, we aim to be the go-to partner for businesses seeking exceptional ingredients for their natural nutrition products. Together with our customers, we will make a positive impact on global health and well-being, empowering individuals to live healthier, more nourished lives.

Key Elements of our Vision and Mission

Uncompromising Quality

We are dedicated to providing our customers with ingredients of the highest quality. Through rigorous sourcing, stringent quality control processes, and adherence to industry standards, we ensure that our products meet and exceed customer expectations. Our commitment to quality extends to every step of our operations, enabling our customers to have confidence in the ingredients they use in their natural nutrition products.

Clean and Sustainable Sourcing

We believe in the importance of sustainability and responsible sourcing. Our vision encompasses partnering with suppliers who share our commitment to ethical practices, environmental preservation, and fair trade. By sourcing ingredients from clean and sustainable manufacturers, we contribute to a healthier planet and help our customers meet the growing demand for eco-friendly and socially responsible products.

Collaborative Partnerships

Our success lies in the success of our customers. We strive to build strong and collaborative relationships with our B2B partners, understanding their unique needs, and supporting their growth and profitability. Through open communication, shared knowledge, and personalized solutions, we work hand-in-hand with our customers to develop tailored ingredient solutions that help them create exceptional natural nutrition products and differentiate themselves in the market.

Innovation and Product Development

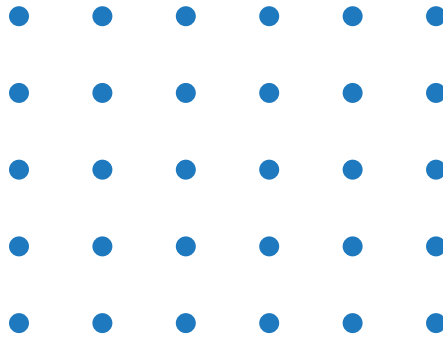

We embrace a culture of innovation and continuous improvement. Our vision includes actively seeking out new trends, emerging technologies, and scientific advancements to bring innovative ingredient solutions to our customers. By staying at the forefront of the natural nutrition industry, we empower our customers to create products that align with evolving consumer preferences and demands.

Customer Education and Support

We believe in equipping our customers with the knowledge and resources they need to succeed. Our mission involves providing comprehensive educational support, including product information, formulation guidance, and market insights. We are committed to being responsive, reliable, and proactive partners, ensuring our customers have the tools they need to create and market exceptional natural nutrition products.

Industry Leadership

We aspire to be leaders in the natural nutrition industry, setting the standard for quality, sustainability, and customer-centricity. Our vision includes actively participating in industry associations, engaging in research and development collaborations, and advocating for policies and practices that advance the growth and integrity of the natural nutrition sector. Through thought leadership and a commitment to continuous learning, we aim to shape the future of the industry.

Amino Acids

We supply many ingredients
Please contact us for quotes

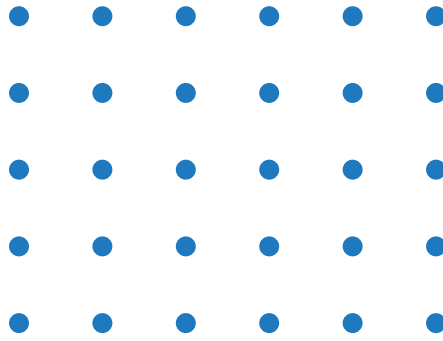

Amino acids are the building blocks that form polypeptides and ultimately proteins. Consequently, they are fundamental components of our bodies and vital for physiological functions such as protein synthesis, tissue repair and nutrient absorption.

Food Additives

A food additive is any chemical substance that is added to food during preparation or storage and either becomes a part of the food or affects its characteristics for the purpose of achieving a particular technical effect.

Acesulfame K	Disodium diphosphate	Sodium citrate
Acetic acid	Disodium phosphate	Sodium hydroxide
Adipic acid	Fructose	Sorbic acid
Agar	Gelatin	Sorbitol
Aspartame	Guar gum	Sucrose
Benzoic acid	Lactic acid	Sucralose
Butylated hydroxyanisole (BHA)	Lecithin	Sulphur dioxide
Butylated hydroxytoluene (BHT)	Locust bean gum	Tartaric acid
Calcium Carbonate	Malic Acid	Titanium dioxide
Calcium chloride	Maltodextrin	Xanthan Gum
Calcium guanylate	Phosphoric acid	Xylitol / DC Xylitol
Calcium propionate	Rice flour	
Carboxy methyl cellulose (CMC)	Silicon dioxide	
Carrageenan	Sodium alginate	
Cellulose, microcrystalline cellulose	Sodium benzoate	
Citric acid	Sodium carbonate	

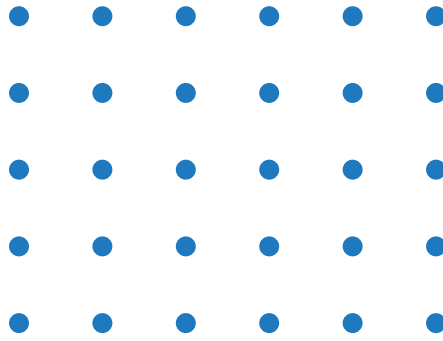

Herbal Extracts/ Powders

Herbal extract is a liquid solution of herbs and alcohol. The dried or fresh herbs are combined with alcohol, then the solid matter is removed leaving only the oils of the herbs mixed with the alcohol. This process is called extraction, hence the name, herbal extract.

5-HTP(5-Hydroxytryptophan)	Bilberry Extract 25%	Celery Seed Extract
Agaricus Blazei 20%	Birch Leaf Extract	Chasteberry Extract/Powder
Alfalfa Extract/Powder	Bitter Melon Extract	Chinese Date Extract

Specialty Ingredients

Specialty ingredients in the nutraceutical industry refer to specific components or substances that are added to nutraceutical products to provide unique health benefits or enhance their overall nutritional value

Astaxanthin (Natural/Synthetic)

Alpha Lipoic Acid

Bee Pollen Powder

Bee Propolis Extract/Powder

Caffeine Anhydrous

Chondroitin Sulfate

Chitosan 90%min, 90%HD, 95%

Chitosan Oligosaccharide

Chromium Picolinate

Coenzyme-Q10

Collagen (Fish/Chicken/Marine)

Creatine Alpha Ketoglutarate

Creatine Ethyl Ester HCL

Creatine Monohydrate

D-Ribose

D-mannose

Diiodotyrosine

Diindolylmethane

Glucosamine HCL

Glucosamine Sulfate

2KCL

Indole-3-Carbinol

Inositol Hexaphosphate

Inositol Nicotinate

L-Carnosine

Melatonin

MSM

R-Alpha Lipoic Acid

Royal Jelly

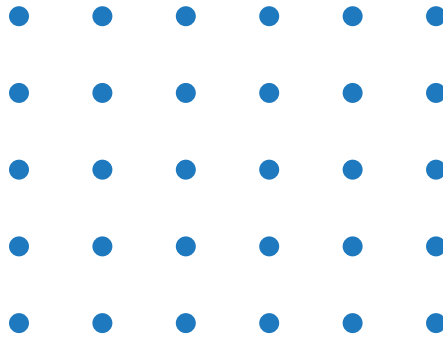

Rice Bran Powder

SAM-e

Shark Cartilage Powder

Soy Isoflavones

Vitamins

Vitamins are a group of substances that are needed for normal cell function, growth, and development. There are 13 essential vitamins. This means that these vitamins are required for the body to work properly.

Ascorbyl Palmitate

Ascorbic Acid (Vitamin C)

Biotin (D-Biotin FCC)

Biotin 1% Trituration

Calcium Ascorbate

Inositol

Para-Aminobenzoic acid (PABA)

Sodium Ascorbate

Vitamin B1 Thiamine HCL

Vitamin B1 Thiamine Mononitrate

Vitamin B12 Cyancobalamin

Vitamin B12 Methylcobalamine

Vitamin B2 Riboflavin

Vitamin B3 Niacinamide/Niacin

Vitamin B5 D-Calcium

Pantothenate Vitamin B6

Pyridoxine HCL

Vitamin B9 Folic Acid Vitamin C

Ascorbic Acid Vitamin D3

Vitamin E

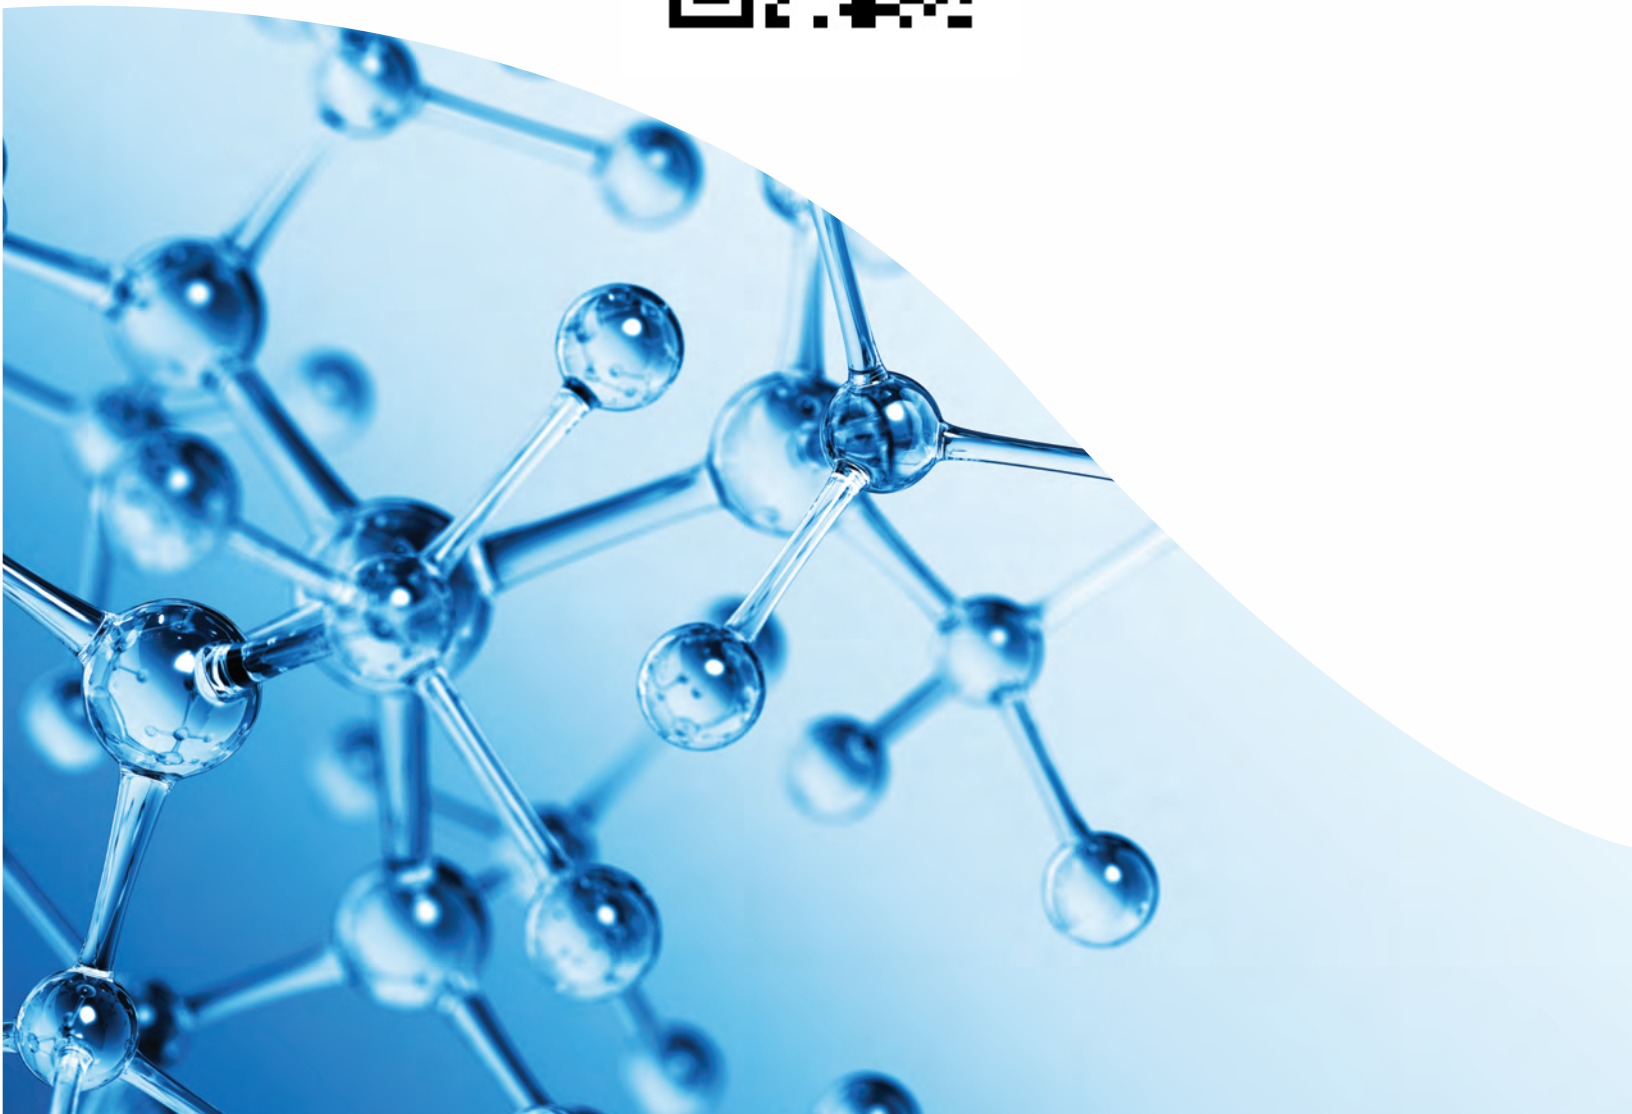

Vitamin K
