

# STORM PREPARATION

Storm preparation is essential for protecting your home, loved ones, and belongings from severe weather. Taking the time to secure your property before a storm can minimize damage, prevent costly repairs, and even save lives. From high winds and heavy rain to power outages and flooding, storms can cause unexpected challenges. Being prepared ensures you have the supplies, plans, and safeguards in place to respond quickly and effectively bringing peace of mind when it matters most.

## Checklist:

- Inspect and clean gutters and downspouts
- Trim weak or overhanging branches
- Secure outdoor furniture and loose items
- Test sump pumps and drains
- Check roof for missing or damaged shingles
- Inspect windows and doors for leaks or loose seals
- Make sure flashlights and batteries are stocked
- Charge power banks and backup devices
- Keep emergency numbers handy
- Move vehicles away from flood-prone areas
