Thoughts from Brian J. Roush...

A New Year also brings different focusses. Our focus has not changed - we want to support and encourage the SMALLER Small Business Owners!! We offer a variety of services to keep your brand moving in the right direction!

January brings a celebration to Connecting Connections - our 2nd Birthday!! We consider ourselves extremely fortunate that we are still standing during the pandemic!! In saying that - we wanted to offer our services as a token of our apperception at half the price.

- Services range from \$15 to \$75 - Maximize your Brand & price!!

Schedule Some Time To Connect Over ZOOM or in Person

more thoughts...

Be a Guest on Our podCAST

Summer Season has started.! You can catch Connecting Communities, with Brian & (our summer co-host) Brandi, weekly as we host a circulation of guests and a format that is informative, engaging & conversational.

We are focused on uncovering the latest trends and resources available for small business owners, also focusing more on the latest and greatest rather than more generalized tips and techniques for running a business.

More importantly, we need to, but how do we talk about race and culture in America?

Racism is still an issue in this country. Brian & Brandi navigate through this by having constructive and informative conversations to move forward and heal, with a handful of guests on a weekly basis. Join us!

June's Guests Included:

Our 60 minute podcast will cover HOT TOLEDO TOPICS - offering knowledge and a safe space to be an entrepreneur! Pick a segment that interests you the most - we have a variety of Generally Specific Topics, on our weekly PODcast! **...listen here**
