## **JUNE 2020**

# IN THE CONNECTION

"Spring being a tough act to follow, God created June." - Albert Bernstein

Nearly 3 months, a quarter of the year, 81 days (as of the 1st of June) - that is the time that has lapsed since we've been face to face. No hugs, No High Fives, not even a fist bump has graced my presence. I thrive on other people's energy - your highs and excitement are celebration worthy for me! I know - surprise! surprise!

As week 3 approached, I remember thinking to myself, "who am I without people around me, my tribe, outside of these walls!" Now I had also turned 43 during this week and was preparing for my first born to turn 9! So, this most likely played a part in my self doubt.

Week 6 came crashing down on me only for me to realize, I was winning! I was in control. I had a plan, I worked the plan, and therefore the plan worked. I had to pause & pivet to process what was happening around us...

We discussed #reinvention last month. Here is my question, where were you in week 3 of this pandemic and where do you stand week 12? How has your business structure changed? Have you adapted to it? It's surroundings?

I still can't wait to hug you all when I see you
