To Whom It May Concern:

I write this letter recommending Amaton Drywall, Inc. as a highly skilled and professional finish carpentry subcontracting firm. I enjoyed working with the Amaton Drywall, Inc. Team on several projects over the last five years. Most recently on the completion of the Winfield Self Storage, San Jose CA in 2023.

Amaton Drywall, Inc. was extremely supportive through a challenging and complex value engineering process with lofty goals. Their supportive efforts continued by means of working with our firm, the designers, and other stakeholders to guide them through the specialized select scope bid process while ensuring adherence to the constrained budget.

The project demands and deadlines for deliverables were always met and executed with professionalism from pre-construction to punch list, which I appreciated. During the project cycle, Amaton Drywall, Inc. quickly responded to our needs and took over a significant amount of additional scope while still managing to meet their scheduled completion dates.

Their quality of work was applauded by the client and the design team. Amaton Drywall, Inc.'s commitment to our needs was unwavering through the complete project cycle. We always had the support and skills of their Project Management Team, Field Supervision, and President, who visited our project often to ensure our needs were being addressed. Without a doubt, their dedication was a contributing key to the success of the project.

I can with confidence recommend the services of Amaton Drywall, Inc. If you have any questions, feel free to contact me.

Sincerely,

Re: Reference Letter

Dear Renee,

I wanted to write this letter as an appreciation for the outstanding work at our 901 Jefferson project in Oakland. Amaton Drywall ensured every schedule was met or ahead of schedule while keeping costs on budget. During the course of construction, we were faced with an unprecedented pandemic, COVID-19, that caused significant delays to the project as well as significant health and safety issues for all the crews. Amaton rose to the occasion and ensured every task was completed as efficiently as practical. Amaton was able to decrease cycle times and work in a manner that kept every crew safe while ensuring all guidelines and protocols were followed. Amaton Drywall exceeded my expectations on quality, professionalism, and communication throughout the entire project. I look forward to our next project together.

Re: Arhaus Furniture / Burlingame California

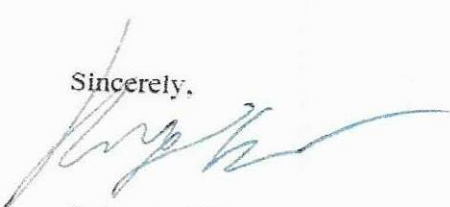

Dear Ms. Clark, we wanted to take a moment to thank you for your involvement in the above noted project.

You and you staff's attention to detail, organization, and communications skills were impeccable and a major component in the successful completion of such a complex project. As we continue to build Arhaus Furniture Projects across the country we can only hope we are blessed with similar relationships with Contractors such as yours that take great pride in their workmanship and developing lasting positive relationships.

If we are ever back in the Bay area, we will certainly reach out to you again for your assistance on any projects.

Stay safe and healthy.

Sincerely,

Robert J. Bliss  
Vice President
