

Current State Assessment

Understanding What's Working and Improvement Opportunities

AS-IS Analysis – TO-BE Design

Value Improvement Areas

Road Map For Change

This approach ensures strategic decisions are grounded in reality, ambition is guided by analysis and execution is structured for success

Operational Performance Management

Current State Assessment

PCC first phase :

Interview key stakeholders across all levels to decode organizational culture and unlock hidden performance drivers.

Evaluate existing processes identifying high-impact opportunities that deliver immediate ROI and sustainable improvements.

Analyze Core Meeting Cadence and associated metrics to identify opportunities that accelerate improved decision-making.

Conduct precision Tool-Time studies that quantify productivity gaps and expose high-impact value potential.

Score front-line meeting capability to establish supervisor and team effectiveness across key performance areas, creating baseline for targeted improvements.

Test assessment findings validity at midpoint with leadership teams, ensuring strategic course-correction and guaranteed success outcomes.

Set implementation scope with clear first steps and quantified added value, providing roadmap to measurable results.

Report findings with savings projections and secure leadership commitment to transformational action plan.

Key Focus Areas During the Assessment Include:

Stakeholder Engagement	Cost & Performance Metrics	Core Meeting Cadence Analysis	Leadership Capability & Culture
<div>✓ Our assessment begins with structured interviews across all organisational levels to create a holistic view of current drilling operations:</div> <div>Executive Leadership Interviews</div> <div>Middle Management Interviews</div> <div>Front-Line Team & Contractor Interviews on and offshore</div>	<div>✓ We analyse your current measurement system to identify disconnects between metrics and delivery:</div> <div>Metrics Inventory</div> <div>Costs/Performance Gaps</div> <div>Maximised Efficiency</div> <div>Improvement Teams</div> <div>Contractor Alignment</div>	<div>✓ We conduct a detailed evaluation of your existing meeting structure to identify communication breakdowns and decision-making bottlenecks:</div> <div>Core Meeting Observations</div> <div>Meeting Effectiveness</div> <div>Use of metrics in decision making</div>	<div>✓ We evaluate the human dimension of performance through:</div> <div>Leadership Capability</div> <div>Cultural Mindset Evaluation</div> <div>Front Line Capability Scoring</div> <div>Knowledge Management</div>

ROI Focus

Metrics-driven approach targets measurable cost/time savings within 6 months

PCC Facilitate Mid Point and Final Report Outs (Tested With The Client) Which Include:

AS-IS State

- ✓ Insights and Observations
- ✓ Supporting Evidence
- ✓ Recommendations
- ✓ Improvement Considerations
- ✓ Potential Savings Summary
- ✓ ROI Guarantee

TO-BE Proposition

- ✓ Detailed Implementation Plan
- ✓ Road Map
- ✓ PCC Resource Plan
- ✓ Pilot Programme
- ✓ Quick Wins
- ✓ Capability Program
- ✓ Sustainability Approach
- ✓ Change Steering Committee
- ✓ Reporting Structure

Transparency

Mid-point findings validated with client teams before final recommendations.
