Phineas ~
As we sit together, side-
by-side, I am coming to realize
how difficult it really is to put thoughts
and feelings into words. You have added some-
thing very special to my life, and I can't
imagine who I would be without your
wisdom and inspiration.

I truly believe our purpose on this
crazy Planet is to develop our minds and
our souls to the fullest potential possible.
You are the base which most people
who know you build from. You are
spiritual growth, dad, and I truly
believe your utopia awaits you in
Colorado. I look forward to the day
when I get to walk with you in the
"Valley of Spiritual Growth" and the
time when father and daughter can
join together in achieving the highest
level of utopia, thru love!

Love Ya ~
Tanya
