STRENGTH TRAINING PERFORMANCE

Presents

CICLOTTE®

The [Ciclote](#) is the name of this futuristic fitness equipment, designed by Italian Luca Schieppati. This bike is the result of hand built Italian design merging with elite manufacturing quality. Truly there is no other bike like it, anywhere in the world.

The Ciclotte will be available in different colors with steel, all-carbon, and now glass crystal options. Silver, purple, red, yellow, black, green and white are standard colors. Ciclotte is an “in place” unicycle, with a very striking design and style that will look good in any room of your house, on the deck of your yacht or openly displayed in your executive office. For humid climates for yacht use, there is an option that encapsulates all affected parts, protecting them from moisture. This masterpiece of engineering is mounted on a bracket epicycloid system, with its single wheel magnetized (to generate resistance) and an adjustable seat and handlebars. All this is housed in a steel, carbon fiber or glass skeleton.

STP Fitness Products

The Ciclotte comes with i Pad options to hold a tablet or i phone, and to view wireless online training and fitness monitoring, watch a movie or just listen to music while riding, all while being a real conversation piece in

Talon Investment Group

your home or office. This is not an item to “put away” when you’re done riding. This bike is also a piece of art, looking as good in the lobby of an elite hotel in Dubai or in a Presidential office. It is handmade in Italy and is for the discriminating few who relate to top quality performance and handmade Italian style. Our total package is complete.

Our target markets are exotic auto dealerships, yacht builders and sales showrooms, international resorts and hotels, very elite executive offices.

Our “Dealer “ program requires a 3 bike minimum purchase but offers a dealer discount. We suggest auto dealership also carry a 3 bike quantity to get a choice of colors.

Allow 10-12 weeks for delivery after payment.
