

~ Rh Negative Blood and Spiritual Abilities ~ (PART TWO)

In the first post on this topic, we explored Rh negative blood and its associate presence with unique traits. Let's now look for a minute at other peculiarities that are little understood about this. While, for instance, Rh negative blood can be donated to an Rh positive without a problem, the Rh negative person CANNOT receive blood from a positive due to an intense and potentially fatal immune response! This phenomenon, ill understood by science is actually very easily explained.

Rh negative blood PREDATES Rh POSITIVE even though the positive is dominate! This MUTATION of Rh NEGATIVE (PURE blood) is the reason why this is true! Very simple! True (negative) blood poses no problem in an Rh positive individual, but this is why the reverse is problematic! The mutation, while seemingly DEFINING the ancestor is a play on words probably invoked to deceive people as to this innate truth!

We are informed in Scripture that there is a war in the Spirit between good and evil. While blood type alone cannot and does not overcome personal choices, it does carry weight in the overall scheme of things. "Many are called, FEW are chosen." (Matthew 22:14) That said, GRAFTING in by faith and indwelling of the Spirit certainly overrides physical or scientific reality, hence the workings of the miracle of Creation. This predisposition, however, is most certainly not easily overturned in an individual and thus the Scripture, "Suppose one of you has a hundred sheep and loses one of them. Doesn't he leave the ninety-nine in the open country and go after the lost sheep until he finds it?" (Luke 15:4) Such is the importance of even ONE being "grafted in!"

In the original CREATED state, man is a SPIRITUAL being! It is only the FALLEN state, which came later that is the carnal side! It is the sublime goal of deceptions over this truth to keep this truth hidden. Incidentally, this also explains why Rh positive blood can be CLONED while Rh NEGATIVE blood can NOT be cloned! It's easy to understand now which came first and what this truly means!

Here's what's happened in the United States over the last century: under relaxed border control, this country no longer has anywhere NEAR the numbers of Rh negatives that once were so prevalent in this country. Interestingly enough, the degradation of moral conviction, as well as the erosion of the family and the rise of abortion wiping out 55 million lives so far and counting, it's easy to see a correlation between the rise of Rh positives and the reduction of Rh negatives and the overall state of things, at least in this country.

Now, it truly seems the really sickest of those amongst us in this country are those who can just simply "go along" with the kinds of things considered "normal" these days! While it typically are the ones crying out against the now so-called "politically correct" mentality so sadly in the majority today that are demonized and marginalized and considered "mentally ill" it is really the exact opposite!

Some of the traits associated with Rh negatives are:

- enhanced intuition and psychic abilities
- resistance to disease processes, remain unusually healthy and "age well"
- keen senses with animals and are natural animal handlers
- an otherworldly feeling
- a feeling of having a mission in life
- a drive to seek out truth or answers
- an empathetic and a compassionate character
- a feeling that one is an outsider
- an interest in space and/or science

We will be going much deeper into this in coming posts...

Highest Regards and Much Love,

Kevin
