## Fall Protection Awareness

This course gives basic understanding of the risks involved in Fall Protection and a high-level understanding of scenarios where fall protection system may be required

**Price Varies**

# Confined Space

## 8-hr Confined Space Entry

The ability to distinguish between a confined space and a permit-required confined space is critical. Our course teaches students the most common differences and ways to eliminate or control the hazards associated with both. First-hand experience will be used to educate and challenge the student's ability to identify and plan for work in various scenarios. Students will plan, assemble, and enter mock confined spaces.

**\$567**

## Confined Space Rescue

The course covers both horizontal and vertical Permit-Required Confined Spaces, along with Entry and Non-Entry planning and procedures..

**Price Varies**

## Confined Space Awareness

This course gives basic understanding of the risks involved in Confined Spaces and a high-level understanding of scenarios where Confined Space entry may exist or be required.

**Price Varies**

# Scaffolding

## Competent Person Scaffolding

This course gives you a strong understanding of scaffolding safety, regulations, design, erection and dismantling procedures. Functioning as an educational tool, employers are ultimately responsible for determining whether an employee is designated as a "Competent Person."

**\$567**

## Mobile Elevated Work Platforms

In accordance with ANSI A92 standards, a MEWP operator is considered a "Supervisor" and is required to complete compliance training on the proper MEWP selection, rule & regulations, safe operations, and hazard identification.

**\$546**

## Scaffolding Awareness

This course gives basic understanding of the risks involved with Scaffolding and a high-level understanding of various scaffold types and scenarios where they may be used.

**Price Varies**

# Additional Topics

## Rigging and Signal Person

This course will cover basic knowledge of rigging practices, capacities, hazards, and signal operations. The Rigger will perform simple, repetitive rigging tasks with load weight, center of gravity, rigging, and configuration to demonstrate proper understanding.

**\$540**

## Industrial Powered Trucks (Forklift)

This class is designed to train individuals to safely operate powered industrial trucks. This includes operating hazards, stability triangle, combined actions, pre-operation inspection, tipping, loading/unloading, traveling, ramps, parking, unattended fork trucks, refueling and rigged loads.

**\$540**

## ATSSA Flagger

Learn how to safely and effectively direct traffic, use hand signals and flagging devices, identify hazards and respond during emergencies. Flagger certification is required for any worker who directs or controls traffic in or near public roadways

**\$279**

## First Aid & CPR

First Aid CPR is designed for anyone with little or no medical training who needs training as a requirement for their employment or industry. Real life events will be utilized during the course to challenge the students' knowledge and decision-making ability.

**\$217**

## OSHA 10

As an introductory course designed for the entry-level workers. This training may be mandatory in certain states, cities and local jurisdictions. This training equips industry professionals with the knowledge and skills to work safely, reduce hazards, and promote a culture of safety in the workplace.

**\$612**

## OSHA 30

OSHA 30-Hour Construction Training covers a broad spectrum of health and safety workplace topics that will familiarize you with OSHA Construction standards. This training may be mandatory in certain states, cities and local jurisdictions. This training equips industry professionals with the knowledge and skills to work safely, reduce hazards, and promote a culture of safety in the workplace.
