

# INNOVATIVE RENTAL SUPPLY

**SELF-RESCUE<sup>21</sup>**  
EMERGENCY DESCENDER SYSTEM

## WE'LL GET YOU SAFELY TO THE GROUND

When in use, our unit offers a controlled descent as the result of a fall, or as emergency egress.

Originally created to save hunters that fall from deer stands, the SR-21 was redesigned to protect workers at heights.

Whether you are in a boom truck, aerial lift, swing stage, or tower crane, the SR-21 can get you safely to the ground.

### DURABLE & LIGHTWEIGHT

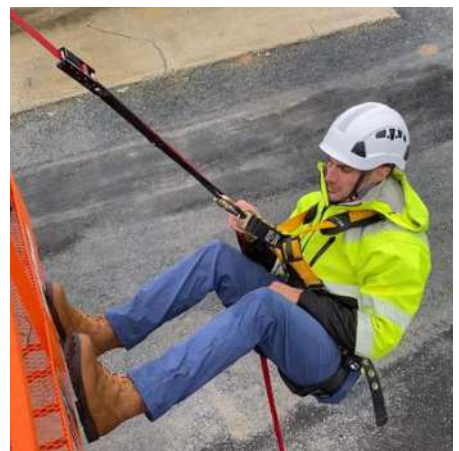

Works for workers ranging from 130 lbs up to 300 lbs, while the unit itself only weighs 2-lbs. It can also be REUSED...Once deployed, simply rethread and use it again and again

### SAFE & FULLY PATENTED DESIGN

Self-Rescue21 meets OSHA 1926.502 and ANSI Z359 Safety Standards. In addition, the design of this product is fully patented.
