INNOVATIVE RENTAL SUPPLY

THE ADJUSTASTAIRS STORY

There has been a growing drive on construction projects worldwide to eliminate unsafe ladders, without the hassle of building up a scaffold to access between levels on sites. That's why SafeSmart is pleased to introduce the AdjustaStairs. This product is quickly becoming a popular choice for industries and trades that need safe and efficient temporary multi-level height access.

It is our customer base who helped us identify this need in the market. And since designing and developing our first set of portable stairs for those clients, the AdjustaStairs system has evolved into a recognizable and trusted product around the world.

When looking for market-leading portable stairs, look no further than AdjustaStairs.

SUMMARY OF BENEFITS

- Safer than a ladder – allow multiple users at once to carry tools and equipment between levels.
- 5 minutes set up time.
- Instant adjustment – simply place the stairs at the level you require, and the treads will self-level to suit the height. Once the handrails are raised and the stairs fixed top and bottom, they're ready to use – no additional sign-off or certification required.

ADJUSTASTAIRS: HOW DO THEY SELF-LEVEL AND ATTACH?

This innovative design allows the treads to move with the stringers. They will self-level to provide a firm, flat surface at the desired height and pitch angle, once level, they are fixed to the support surface as shown below.

TIMBER FIXING

CONCRETE FIXING

Recommended Fixings:
Minimum 4x 3/8 x 2" Screw Bolts
Anchors Subject to Substrate Assessment

ACCESSORIES

MODEL	DESCRIPTION	BENEFIT
15ASHB24	Bolt-On H-Brace for 24" Wide AdjustaStairs	Increases Cap. by 500LBS
15ASHB36	Bolt-On H-Brace for 36" Wide AdjustaStairs	Increases Cap. by 500LBS
15ASSA24-3STEP	Bolt-On Step Extension Attachment for 24"	Increases Reach Height by 2 FT
15ASSA36-3STEP	Bolt-On Step Extension Attachment for 36"	Increases Reach Height by 2 FT
15ASML	Mid Landing Kit with H-Brace	Joins 2 AdjustaStairs

ADJUSTASTAIRS ACCESSORIES

LIFTING LUGS

- Attach to any aluminum AdjustaStairs model.

SCAFFOLD MOUNT HOOK

- Attaches to the top fixing plate of the AdjustaStairs and clamps stairs to a scaffold tubular ledger.

STRUTLOCKS

- Designed to hold AdjustaStairs at a set angle when the fixing plate cannot be secured (e.g. when used for access to a truck tray).
- Perfect for when AdjustaStairs are used on slope.

24" 3 STEP EXTENSION

- Attaches to the bottom of any AdjustaStairs model to add an extra 24" of height range.
- Can also be used as an independent step or stair where space is limited.

MID LANDINGS

- Custom sizes - made to order.

INDUSTRY APPLICATIONS

BATTER ACCESS

- Stairs will self-level to suit the angle of the batter.
- Multiple stairs can be joined end to end to create long runs.
- Top and mid landings are available
- Fixing options include: bolting top of stairs to timber sleeper or structural ply, pinning into dirt at the bottom.

HEADSTOCK ACCESS

EXCAVATION ACCESS

- Adjustability of the stairs makes them ideal for excavation access, where levels are constantly changing.

FORMWORK ACCESS

- Use AdjustaStairs instead of a ladder for your primary or secondary access
- Much quicker to set up and move than a scaffold tower.
- 36 inch W version is ideal for high-traffic sites.

FORMWORK SCREEN ACCESS

- Adjustable feature means that the stairs can be simply fitted inside formwork screens.
- Stairs can be custom made to length to fit different screens.

LIFT CORE ACCESS

RAIL ACCESS

- Electrically-safe fiberglass AdjustaStairs may be required for use inside the rail corridor.
- Set up in seconds for access from platform level to the rail line.
- Clamping options available to avoid drilling into rail platform.

TRUCK ACCESS

- Truck AdjustaStairs have an extended top lip (for grip) and strutlocks pre-fitted – no fixing required (code 15AS06 for 6 step Truck AdjustaStairs).
