

INNOVATIVE RENTAL SUPPLY

Our portable, all aluminum work platforms are ideal for extending your truck trailer's surface for safe access around stored materials and equipment. Platforms provide efficient trailer access while loading and unloading at any work site.

ANSI Rating: 3-Man (3,000 lb) Capacity

Each platform features CNC billet hooks which allow for easy mounting to a flatbed trailer's rub rail. A safety guardrail helps protect against falls and is for easy storage.

**Combine with a Trucker Series® ladder for safe, easy access.*

INNOVATIVE RENTAL SUPPLY

MOBILE WORK PLATFORMS

ANSI Rating: 3-Man (3,000 lb) Capacity

FEATURES

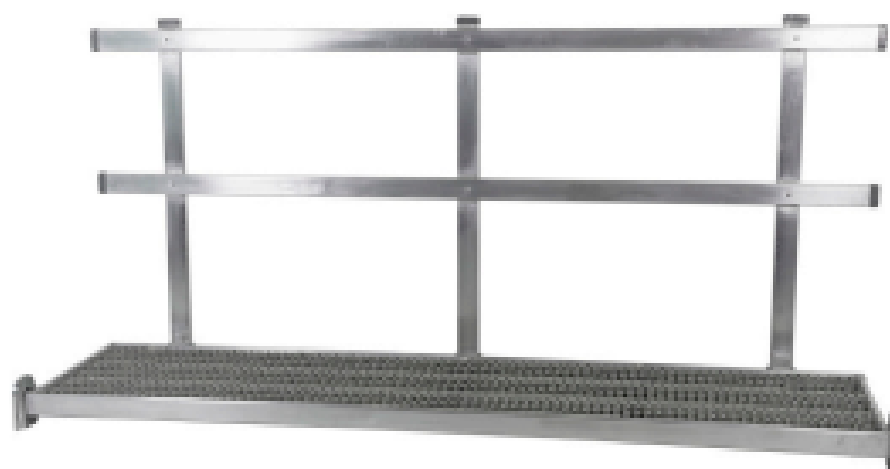

- All Aluminum
- Slip-resistant tread
- Removable handrail
- Additional left & right handrails are available

8' Platform

- Weight: 87 lbs
- Dimensions (Platform):
96" W x 21" D
- Dimensions (Handrail):
96" W x 42" H

4' Platform

- Weight: 45 lbs
- Dimensions (Platform):
48" L x 21" D
- Dimensions (Handrail):
48" W x 42" H

8' Platform

4' Platform

CONSIDER PORTABLE FLATBED FALL PROTECTION PLATFORMS

- Portable and space saving compared to larger systems
- Includes fall protection safety guardrail
- Productivity cost-value: effective and easy to mount
- ANSI rated weight support, slip-resistant tread
- Modular build; remove safety rail for storage
- Ideal for truck loading and unloading or maneuvering
- Mobility advantages; OSHA safe at any location
- Use with Trucker Ladders for safe access and loading

INNOVATIVE RENTAL SUPPLY

ANSI A14.7-2007 & ANSI/ASSE A10.8-2001 – Special Duty (375-lb)

The Trucker I® ladder is designed to assure the user has (3) points of contact. The design also features an aggressive slip-resistant tread and two folding handles.

**EASY
PORTABILITY**

**COMPACT
STORAGE**

SAFETY FIRST

Trucker® Series products provide fall protection benefits that **OSHA-minded** safety managers value. The Trucker® Series includes truck/trailer ladders to fit most semi-truck trailers and utility vehicles; with ladder storage racks available, for complete fall protection safety.

In the end, **safety, versatility, and efficiency** is why Trucker® Series products have been adopted by drivers and truck fleets in a wide range of industries. Our products are versatile to match any trailer style and deliver practical features including: folding handles that provide the operator with (3) points-of-contact, slip-resistant Grip-Strut® staircase steps, lightweight all-aluminum construction, which allows easy portability to the point-of-use, and a compact fold-together design for storage.
