# BRIGHT AND CLEAN

## **DESCRIPTION:**

A general purpose aluminum brightener acid wash used as a step #1 in a two-step wash for tractor trailers. BRIGHT AND CLEAN is a combination of acids and wetting agents designed to clean and brighten aluminum. It is for use on trailers, tank trucks, ships, tugs boats and other aluminum surfaces where fast cleaning and super brightening power are essential. BRIGHT AND CLEAN is balanced to quickly cut through road film and diesel exhaust smoke. It is a great carwash panel cleaner as well.

#### **DIRECTIONS:**

## FOR GENERAL CLEANING OF WHEELS, TRAILERS AND ASSORTED ALUMINUM SUR-

**FACES:** Rinse the surface with water to remove loose soils. Pre-mix 10 - 12 ounces of BRIGHT AND CLEAN per gallon of water in a pump up sprayer or bucket. Apply to surface, let dwell for 30 to 60 seconds, rinse with plenty of water. Agitate heavily soiled areas if necessary.

**PRESSURE WASHER PREPARATION: DO NOT** run BRIGHT AND CLEAN through a pressure washer pump, use an in-line or down-line injector. Pre-mix 1 1/2 gallon BRIGHT AND CLEAN with 5 gallons of water to achieve a final dilution of approximately 100:1. If needed, add more BRIGHT AND CLEAN for extra strength on heavier soils.

**ACID WASH APPLICATION:** Pre-mix 11/2 gallons BRIGHT AND CLEAN with 5 gallons of water. Spray on with a pressure washer from the bottom up allowing a short dwell time of 30 seconds to 1 minute. For painted surfaces follow this step immediately with an alkaline neutralizer like BRUSHLESSVEHICLE WASH. **DO NOT** allow acid to dry on surface. Then follow with a thorough fresh water rinse. **DO NOT** allow acid to contact glass, anodized aluminum or magnesium surfaces as it *can cause etching*.

#### NOT TO BE USED ON POLISHED ALUMINUM.

#### **TECHNICAL DATA:**

pH CONCENTRATE	< 1.0
VISCOSITY	THIN LIQUID
COLOR	CLEAR
ODOR	SHARP ACIDIC ODOR
FOAM PROPERTIES	MINIMAL
SOLUBILITY IN WATER	COMPLETE
SURFACTANTS	BIODEGRADABLE

#### FOR FURTHER INFORMATION REFER TO THE MATERIAL SAFETY DATA SHEET

## **PACKAGING:**

Available in 250 gallon totes, 55 gallon drums, 5 gallon pails and 4 gallon cases.
