## DAIRY CLEANING ACID

### Application

**DAIRY CLEANING ACID** was specifically developed for the daily cleaning of stainless steel, glass-lined, and cooper surfaces. **DAIRY CLEANING ACID** removes mineral deposits from water or brine side of plate units, removal of milk or egg stone and general stone removal from stainless steel, glass-lines, porcelain enameled and tinned iron surfaces. This product works well in wide variations of temperatures, soils and water conditions.

### Product Utilization

Manual cleaning (mop and bucket)  
Soak Cleaning

### Advantages

Highly concentrated for good value  
Effective on many types of soils  
Ideal for cleaning all food processing equipment  
Low odor  
Ideal for both land and "at sea" food processing operations  
Also effective for use in bakery, meat, pasta and egg processing facilities

### General Directions for use

Manual (mop and bucket) applications: 3 - 6 oz/gallon.  
Soak cleaning, 3 - 6 ounces/gallon.

### Product Data

Color: clear  
Density: 9.25 lb/gal.  
Form: liquid  
Flash Point: none  
Meets original USDA "A-3" requirements

### Precautions

**CONTAINS: Hydrofluoric and Phosphoric Acid.** Will cause injury if swallowed or inhaled. Will cause severe skin burns which may not be immediately painful or visible. Read all cautionary information including Material Safety Data Sheet before using.

**DANGER: Contains Hydrofluoric Acid.** Hydrofluoric Acid causes severe burns, blindness and death. Prompt medical treatment is important to minimize the effects of overexposure.

**WARNING:** This product may cause irreparable physical damage if misapplied or misused. There is no warranty expressed or implied whatsoever. Manufacturer will not be liable for any damage resulting from any use of this product whatsoever. **THIS PRODUCT WILL ETCH GLASS.**

Keep this and all cleaning compounds away from children.

### Packaging

### Product Code

DAC01-01	4x1 GALLON CASE
DAC01-05	5 GALLON PAIL
DAC01-55	55 GALLON DRUM

### Application Technology

Your **Industrial Research Products** representative can assist you in setting up a custom designed sanitation program. This includes offering you a number of suitable cleaning and sanitizing products as well as recommending custom designed chemical metering and application systems. We also can provide chemical safety and sanitation training to your staff. Our sanitation programs include odor control strategies as well as on-going sanitation reviews.
