## FLEET CLEAN BRUSHLESS VEHICLE WASH

### DESCRIPTION:

**FLEET CLEAN BRUSHLESS VEHICLE WASH** is a concentrated heavy-duty alkaline cleaner designed as a one-step brushless vehicle wash. It is fast acting and is low foaming to blast away dirt, grime, bugs and road film from fleet trucks, buses, heavy equipment and cars without manual brushing!

Also terrific as an interior cleaner for all vehicles

### DIRECTIONS:

**FLEET CLEAN BRUSHLESS VEHICLE WASH** can be applied either with a pump up garden sprayer or using the low pressure side of your pressure washer. Always allow time for the product to penetrate the soils but do not allow it to dry on the surface. Rinse the vehicle well using the high pressure of your pressure washer. Always apply **FLEET CLEAN BRUSHLESS VEHICLE WASH** to a dry surface, working from side to side and bottom to top. Allow a brief penetration period, then pressure wash off without manual brushing. For best results, apply at high temperature (140°F - 160°F) and at high pressure.

**Use dilution of 1:25 (4.5 oz. per gallon) for brushless cleaning. Use dilution of 1:60 (2 oz. gallon) to 1:10 (12 oz. per gallon) for general cleaning depending on type and amount of soil to be removed.**

### FOR USE AS AN INTERIOR CLEANER:

Dilute in Quart Trigger Sprayer: Put 1 ounce of **FLEET CLEAN BRUSHLESS VEHICLE WASH** into empty quart bottle and add 31 oz. of water. Attach trigger spray head to bottle and begin to apply to dash, gauges, plastic and vinyl surfaces where dirty, let set for one minute or less if in direct sunlight, then wipe surface clean with cloth.

### TECHNICAL DATA:

pH CONCENTRATE.....9.5  
VISCOSITY.....THIN LIQUID  
COLOR.....AMBER  
FOAM PROPERTIES.....LOW CONTROLLED FOAM  
SURFACTANTS.....NON-IONIC  
SPECIFIC GRAVITY.....1.03  
BIODEGRADABILITY.....100%

### PACKAGING:

Available in 250 gallon totes, 55 gallon drums, 5 gallon pails and 4 gallon cases.

PRODUCT CODE:.....FLE01

**FOR FURTHER INFORMATION REFER TO THE MATERIAL SAFETY DATA SHEET**
