Industrial Research Products High Performance Products

FOAMING FOOD PLANT CLEANER PLUS

CHLORINATED HEAVY DUTY ALKALINE CLEANER / DEGREASER

Application

Specifically designed as a concentrated, heavy duty alkaline cleaner and degreaser for the Food Industry. Its economical, high foaming formulation quickly removes fats, oils and greases that accumulate in production areas. Foaming Food Plant Cleaner Plus can be used for cleaning all stainless steel production equipment, walls, floors, and hoods.

Product Utilization

Foam application systems
Pressure washing systems
Manual cleaning (mop and bucket)

Advantages

Highly concentrated for good value
Chlorine stable formula to improve destaining ability
Wide application formulation
Foams easily to improve contact times
Works well in hot or cold water
All compounds in this product are biodegradable

General Directions

In General: Always pre-rinse area to be cleaned with water to remove loose soils. Dilute 2 to 12 ounces of product with water and apply by spraying or wiping the surface. Remove encrusted soils with scrubbing. Rinse well with potable water. Follow with a suitable sanitizing rinse.

Foam Cleaning: Dilute 6 to 12 ounces of product with water in the foam generator. Start application of product from bottom up, sweeping from side to side. Allow product to dwell for a brief penetration period, do not allow to dry, scrub if necessary. Rinse from top down with potable water and sanitize surface.

To improve protein removal or destaining capabilities, sodium hypochlorite has been added to the Foaming Food Plant Cleaner as a fully formulated mixture.

High dilutions of Foaming Food Plant Cleaner Plus can be corrosive to soft metals (aluminum, brass and copper) as well as painted surfaces. Test this product in an inconspicuous area prior to use for general applications.

Product Data

Dilution	2 to 12 ounces for general cleaning 6 to 12 ounces for foam cleaning
Color/Form	Clear to yellow / Liquid
Odor	Mild chlorine
pH	13.0
Flash Point	None at use dilution
Safe on	Ferrous metals – diluted product Fiberglass, vinyl, plastic Wood, concrete, glass

Precautions

Do not get concentrate in eyes or mouth. Avoid inhaling concentrated vapors. Wear suitable safety clothing when using this product. This includes splash-proof safety goggles, nitrile or neoprene gloves and waterproof apron or coat and pants. Do not mix this product with any other chemical, particularly acids. Dangerous chlorine vapors may form. Be sure to read and understand product label and MSDS information prior to using this product. Keep this and all cleaning compounds away from children.

Packaging	Product Code
4 gallon case	FPC01-01
5 gallon pail	FPC01-05
55 gallon drum	FPC01-55
250 gallon tote	FPC01-00
