MX-35

HEAVY DUTY ALUMINUM BRIGHTENER

DESCRIPTION:

MX-35 is our strongest aluminum brightener. Use our MX-35 acid wash as a step #1 in a two-step wash for tractor trailers. MX-35 is a combination of acids and wetting agents designed to clean and brighten aluminum. It is for use on trailers, tank trucks, ships, tugs boats and other aluminum surfaces where fast cleaning and super brightening power are essential. MX-35 acid wash is balanced to quickly cut through road film and diesel exhaust smoke. It is a great carwash panel cleaner as well.

DIRECTIONS:

FOR GENERAL CLEANING OF WHEELS, TRAILERS AND ASSORTED ALUMINUM SURFACES: Rinse the surface with water to remove loose soils. Pre-mix 6 - 10 ounces of MX-35 per gallon of water in a pump up sprayer or bucket. Apply to surface, let dwell for 30 to 60 seconds, rinse with plenty of water. Agitate heavily soiled areas if necessary.

PRESSURE WASHER PREPARATION: **DO NOT** run MX-35 acid wash through a pressure washer pump, use an in-line or down-line injector. Pre-mix 1 gallon MX-35 with 5 gallons of water to achieve a final dilution of approximately 100:1. If needed, add more MX-35 acid wash for extra strength on heavier soils.

ACID WASH APPLICATION: Pre-mix 1 gallons MX-35 acid wash with 5 gallons of water. Spray on with a pressure washer from the bottom up allowing a short dwell time of 30 seconds to 1 minute. For painted surfaces follow this step immediately with an alkaline neutralizer like BRUSHLESSVEHICLE WASH. **DO NOT** allow acid to dry on surface. Then follow with a thorough fresh water rinse. **DO NOT** allow acid to contact glass, anodized aluminum or magnesium surfaces as it *can cause etching*.

NOT TO BE USED ON POLISHED ALUMINUM.

TECHNICAL DATA:

pH CONCENTRATE..... < 1.0
VISCOSITY..... THIN LIQUID
COLOR..... CLEAR
ODOR..... SHARP ACIDIC ODOR
FOAM PROPERTIES..... MINIMAL
SOLUBILITY IN WATER..... COMPLETE
SURFACTANTS..... BIODEGRADABLE

FOR FURTHER INFORMATION REFER TO THE MATERIAL SAFETY DATA SHEET

PACKAGING:

Available in 250 gallon totes, 55 gallon drums, 5 gallon pails and 4 gallon cases.

PRODUCT CODE:.....MX301
