

AFTERCARE INSTRUCTIONS

Starting Today: Lightly dampen a cotton round with sterile water and pat brows every couple of hours you are awake till tomorrow night (No ointment applied the first day)

Days 2- 10: Clean the area with a small amount of sterile water on a cotton round every morning and night and then apply a tiny amount (like the size of a grain of rice) of the healing ointment provided with a cotton swab. (Do not use Neosporin)

When can I wash my microblading? Keep the area really dry for the first 3 days. When washing your face, use a washcloth to control where your cleanser is going and avoid the brow area completely. You can shower, but just be sure to tilt your head back to avoid water running on your new brows. Avoid long steamy showers for 10 days.

AVOID for 2 weeks:

- DO NOT pick, scratch, or rub!
- NO makeup on brows.
- NO excess water!
- NO excess sun exposure!
- Tap to release any itch.
- PAT to dry if they get a little wet, DON'T RUB!
- AVOID sweat producing workouts!
- AVOID saunas, steam rooms, sunbeds, and hotubs.
- AVOID ANY SWIMMING!!! Includes the Ocean, Lakes, and Pools!
- AVOID sleeping on either side of your face.
- NO STRONG treatments for 2 weeks! Includes Retinols, AHA's, exfoliating treatments, chemical peels, microdermabrasion, or Botox.

Be sure to keep your 6-8 week Enhancement Appointment
