This year, I decided to not order the student kits but rather to order the core curriculum individually. The reason for this is that we do our own things as far as science, health and history. By doing so, we are saving you \$90 - \$100.

The above prices may change as ABEKA is raising their prices on July 1st. If you'd like to lock in your price, please send your money in right away so I can get it ordered.

Venmo is the quickest way to pay unless you do a direct deposit with Zelle.
