CARE TRANSITIONS OF CALIFORNIA, LLC
3017 DOUGLAS BLVD. SUITE 300
ROSEVILLE CA 95661

Our Commitment

Our team is dedicated to understanding each person's unique care needs. We serve with compassion and care knowing that this can be a somewhat difficult time for the family. We understand how overwhelming or maybe slightly confusing this process can be at times especially when you already have other priorities to deal with. This is when you can depend on our team to do what is right when it comes to assisting our clients and making this transition less stressful.

Free Service | No Hidden Fees

We are compensated by a referral fee that is funded by the licensed care facility which is part of their allotted annual marketing cost. Since we have a longstanding and good relationship with hundreds of licensed care providers in the community, we are constantly notified of any special move-in offers and discounts. A fee is not always collected. Some of the information is happily provided at no charge.

Our clients get unbiased information on the facilities that we tour and honest reviews and feedback from families that we may have helped move-in to any of these licensed care facilities.

Care Transitions of California offers a no cost and personalized service to families needing assistance with In-Home Care or appropriate placement options for themselves or their loved-ones. Knowing the difference between numerous facilities and their services helps when making a decision in finding a community that can provide the service and care for each clients individual needs. What can one expect from an Assisted Living Facility, Memory Care Facility, Independent Living Facility or a Residential Care Facility for the Elderly, AKA Board & Care Home? What if we want to stay at home? Can we Hire In-Home Caregivers? Will my Long-Term Care Insurance cover my monthly expenses?

Care Transitions can help answer some of these questions. We can schedule and set-up tours of the different kinds of facilities that is appropriate for each individuals needs. We determine this by doing an assessment on the client and also by speaking with the client / family members. We help families from the beginning stages of placement up until move-in and continue to follow-up as they transition into a new home and can be assured that all expectations are met by the facility of choice.
