# QR CODES ARE FREE!!

Did you know that you can create free qr codes for your events, sites and all sorts of fun things?

All you need is the site information for your event be it Facebook event, website with flyer posted on it or any website that links to your event.
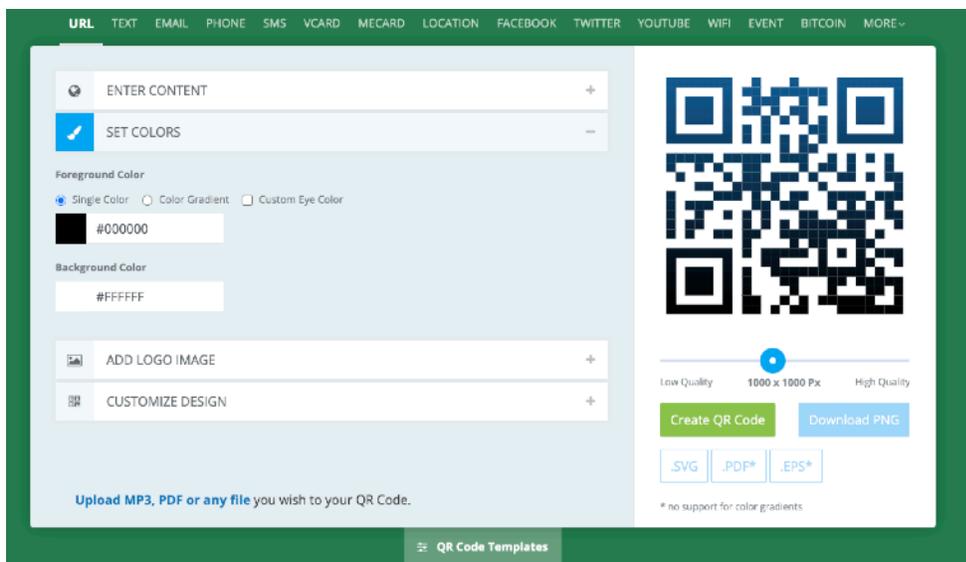

Below is the website for QRCode Monkey
https://www.qrcode-monkey.com/

This site allows you to create QR codes for all sorts of things such as websites, flyers, promos and many other things.
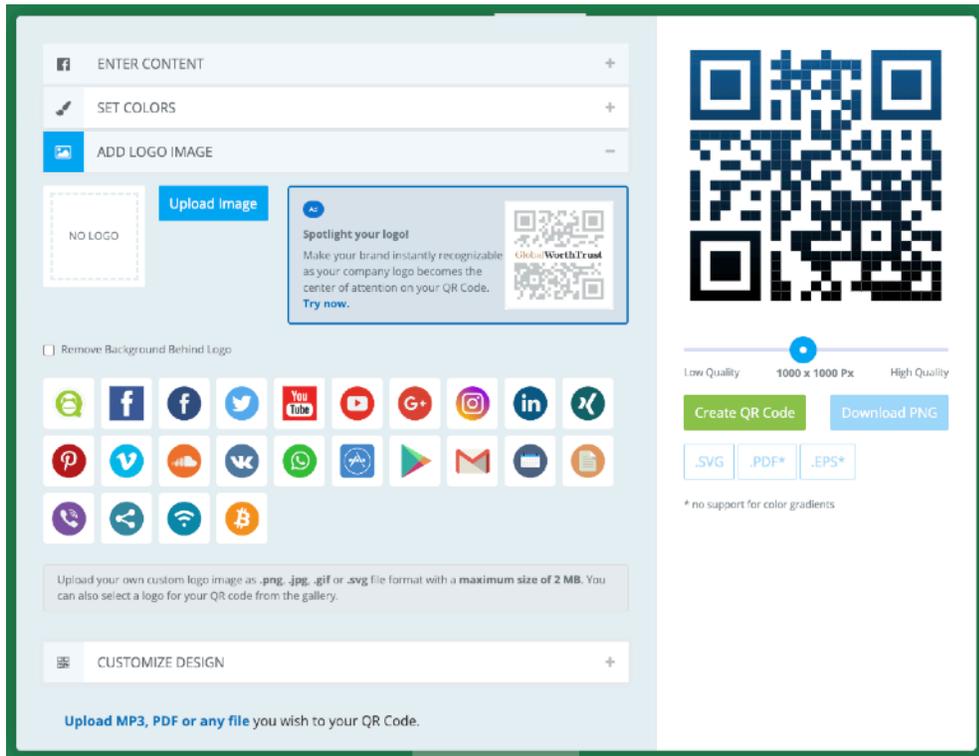

Once you are on the site you just have to enter the information you need such as url or web address, Facebook link, phone number or email.

From there you can then set colors and do gradients should you choose

You can also add in a logo if you like. It will place it center and without adjusting the logo. This may be an upgrade depending on how many times you do it at once. Usually it is free.

Once you are ready then you just hit the created QR code green button on the right hand side and it will show you a preview above it.

If you like it hit download PNG or the blue button and it will download to your desktop.

Also it will give you an ad but you can close it and just let it download.

Then you can use as you like as many times as you like. It is your for use.

FREE ARTWORK SITE

Below are a few places for free artwork. There is a mixture of free and premium usually marked as such.

Most might ask for a small note of who created it and you can always place that near the bottom of your flyer or site in small font.
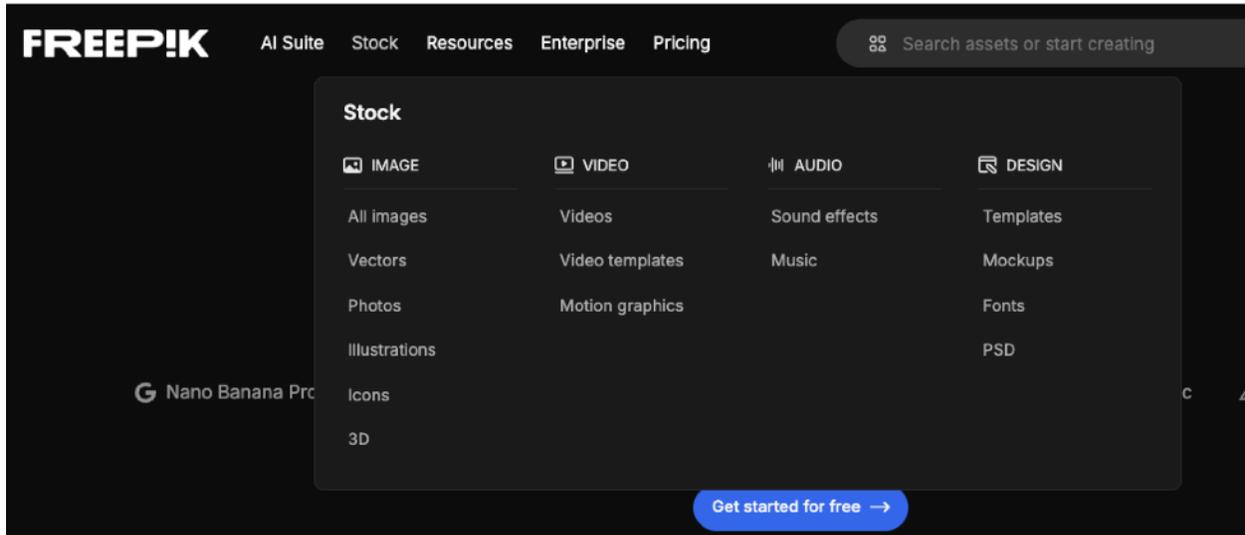

Free Vector art is illustrations and such for use.
https://all-free-download.com/free-vector/artwork.html

Free Pik - Does require a free account but is super easy to use and work with.

This one will mark paid art with a cute crown on it for premium.

Under the Stock tab there are all sorts of things from images, videos, audio and design for flyers and templates. Please note the templates and psd design will require a form of photoshop or light room.
