

To Whom It May Concern,

I am an Electrical Engineer with BWXT NOG Barberton. This is a letter of recommendation to employ the services of AMP Lighting. My experience with this company was met with professionalism and efficiency. We utilized their services to replace old hi-bay LED lights in one of our warehouse buildings. AMP Lighting was easy to work with, knowledgeable, and fulfilled the scope of work on time and on budget. I would gladly use their services again in the future.

Sincerely,

Joe R. Hlas | Electrical Engineer
