There is some absolutely huge news that just happened. British conservative politician Andrew Bridgen has just said there was a massive coverup of covid vaccine side effects.

During his speech, he said he had contact with a journalist who told him that he was bombarded with people telling him that they were suffering from side effects of the vaccine. But he wouldn't dare report on it because he was afraid to lose his job.

The mainstream media may not report on this, but I will!

The mainstream media is covering this up, they are refusing to report on the people who say they have been injured. Why would that be? Well, in case you didn't know, the CEO over at Reuters is also on the board of Pfizer...No conflict of interest there!

Now in his speech, the conservative politician said something very interesting.

"What is most disturbing of all however, is that of those original trials, suggesting that one was far more likely to suffer a serious side effect from the vaccine than be hospitalized by the ancestral, more lethal strain of the virus. These findings, madam deputy speaker, are a smoking gun suggesting that the vaccine should likely never have been approved in the first place."

Woah, this is huge. Why isn't his speech all over the news...Oh wait. He already said that a journalist he spoke with was afraid to report on it because he would lose his job.

And it gets worse. Big Tech is suppressing this story as well. Just look at this Orwellian message that appears when you search for this on Google.

Screenshot of Google search for this topic.

He also mentions that an Israeli paper found there was a 25% increase in heart attacks and cardiac arrests in people aged 16-39. And he further says that in the UK **there was a whopping 14 000 extra cardiac deaths** that happened out of hospital in 2021. This is bad.

IT GETS EVEN WORSE.

The politician came with some shocking accusations of a massive coverup by leading doctors on the vaccine side effects.

"It has been brought to my attention by a whistleblower from a very reliable source that one of these institutions is covering up clear data that reveals that the mRNA vaccine increase inflammation of the heart arteries. They are covering this up in fear that they may lose funding from the pharmaceutical industry.

The leader of that cardiology research department has a prominent leadership role with the British Heart Foundation and I am very disappointed to say that he has sent out non-disclosure agreements to his research team to ensure that this important data never sees the light of day."

WHY ISN'T THIS HEADLINE NEWS EVERYWHERE? Oh wait, we already know why.

Dr. John Campbell uploaded the full speech on his YouTube channel that you can check out here.

Vaccine dangers, UK Parliament debate

I recently did an in-depth investigation into why there is now a HIGHER excess mortality than during the pandemic. What I found was shocking. It turns out that a major factor of the excess deaths are heart attacks, with almost 30% increase among young adults in the U.S. Are we beginning to connect some dots here?

Make sure that you read my previous article where I investigated the excess deaths here:

Doctors sounding the alarm - Mysterious rise in excess deaths...

Something weird is happening and it is not being covered by the mainstream media. A large number of people are dying and doctors don't know why. They do know one thing. It is not only happening in one country. It is happening in many countries at the same time. Countries all over Europe are seeing very high excess death rates this year (meanwhile the birthrates have also mysteriously collapsed this year as well...

One thing is clear. We are seeing sky high excess deaths and it seems like many are dying from heart problems. We now have this politician saying there has been a coverup to hide cardiovascular side effects from the mRNA vaccines.

He also says in his speech that the Joint Committee on Vaccination and Immunization has financial links to the Bill and Melinda Gates foundation...This just keeps getting worse and worse.

And in case you didn't know it, Bill Gates has given some \$319 million to media outlets. Maybe we now begin to understand why the mainstream media doesn't want to talk about this.

This is not some random conspiracy theorist saying this. This is a democratically elected politician of the British parliament. What was once said by people called conspiracy theorists, is now being openly said by politicians.

In the end of his speech, he calls for an immediate shutdown of these vaccines with mRNA technology.

We now know that according to a whistleblower, there was a coverup on mRNA vaccine side effects. We also know that the media isn't talking about this. That's why I'm writing this article.

There was no long term safety data on this new mRNA vaccine technology. Everyone who took it WAS the test subject. And now that long term data is beginning to come out, it is being suppressed and censored by Big Tech and the media.
