LEADING VIROLOGIST SAYS CORONAVIRUS PANDEMIC IS “THE GREATEST HOAX EVER PERPETRATED ON AN UNSUSPECTING PUBLIC”

A top virologist and pathologist in Canada told government officials that the [coronavirus pandemic](#) is, “*the greatest hoax ever perpetrated on an unsuspecting public,*” and that, “*paper masks and fabric masks are simply virtue signaling.*”

“*I might know a little bit about all this,*” he clarifies, as Dr. Roger Hodkinson points out his position as CEO of [Western Medical Assessments](#), a Canadian biotechnology company which manufactures Covid tests.

“Positive test results do not, underlined in neon, mean a clinical infection,” he adds, which echoes the experience of Tesla CEO Elon Musk who recently [made headlines](#) after receiving two positive and two negative tests in one day.

Something extremely bogus is going on. Was tested for covid four times today. Two tests came back negative, two came back positive. Same machine, same test, same nurse. Rapid antigen test from BD.

Hodkinson believes that all asymptomatic Covid testing should stop because it is “driving public hysteria” around the virus which has led to [life-ruining lock downs](#) and other draconian restrictions on citizens.

When it comes to masks, Hodkinson says they are, *“utterly useless. There is no evidence base for their effectiveness whatsoever... Social distancing is [also] useless,”* he posits, *“because Covid is spread by aerosols which travel 30 meters or so before landing.”* Science is often conflicting in regard to the effectiveness of [mask wearing](#). Some studies find that they work very well, [others that they don’t](#), and some even suggest that [the virus is evolving](#) to evade mask wearing altogether.

“There is utterly unfounded public hysteria driven by the media and politicians,” says the doctor, amid a second push for wider lock downs, mandatory masks, enforced social distancing, and curfews.

“[Hodkinson] received his general medical degrees from Cambridge University in the UK (M.A., M.B., B. Chir.) where he was a scholar at Corpus Christi

College,” explains [MedMalDoctors](#), a medical-oriented law firm run by Dr. Hodkinson. *“Following a residency at the University of British Columbia he became a Royal College certified general pathologist (FRCPC) and also a Fellow of the College of American Pathologists (FCAP).*

He is in good Standing with the College of Physicians and Surgeons of Alberta, and has been recognized by the Court of Queen’s Bench in Alberta as an expert in pathology.”

In order to halt the pandemic, Hodkinson believes that older and more vulnerable people need to be protected while noting that for people under the age of 65 in Alberta, Canada, only “one in three hundred thousand” have died. Locking down entire economies is “outrageous” in his view, for what has been tantamount to “just another bad flu” for those younger demographics.

“It’s politics playing medicine, and that’s a very dangerous game,” he concludes. *“I’m absolutely outraged that this has reached this level. It should all stop tomorrow.”*
